

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Manager CGO - Pipeline Integrity Project ManagementReference Code: 60660

Location: Canada (CA) - Calgary, AB Job Category: Management; Project ManagementEmployment Type: Employee

Full-timeRelocation Eligibility: This position is eligible for our domestic relocation programApplication Deadline:

10/15/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go.

It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety,

integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities.We're proud of how our hard work and commitment sets us apart and benefits society, every day.

We're looking for new team members who share our values and are ready to take on exciting challenges. The OpportunityReporting to the Manager, CGO Pipeline Integrity Project Management Implementation, you will oversee the execution of pipeline integrity maintenance projects which may include: pipeline integrity digs and repairs, class location upgrades, hydrotesting, installation of in-line inspection (ILI) launchers and receivers, geotechnical projects, tethered ILI runs, and the emergency pipeline repair program. As Manager, you will provide leadership to team members and be responsible for the planning and execution of a defined program. In addition, you will provide leadership in managing interface and working relationship with Engineering, Construction Services, Environment, Land, Indigenous Relations, Supply Chain Management (SCM), Operation Planning, Regional Operations and various other internal departments in the head office and field locations. What you'll do

- Provide leadership to the Project Management team related to project coordination, project execution, safety and environmental procedures
- Lead regular project progress meetings with Project Managers
- Provide mentorship and quality assurance review for Project Managers
- Provide expertise in the strategy and awarding of construction-related contracts
- Develop and review project execution plans, project proposals and regulatory applications
- Coordinate, direct, and prioritize work of external consultants, inspectors and contractors
- Schedule and assign projects to Project Managers
- Coordinate at a program level the numerous department stakeholders' expectations to ensure project success
- Coordinate with applicable groups to ensure appropriate resources are available to support the entire program
- Attend weekly and monthly meetings with PIPM Manager and other Program Leads to ensure effective communication
- Participate in weekly safety, land, environment, and operations planning meetings
- Communicate best practices across all Canadian Pipeline Integrity Project Management (PIPM) projects
- Collaborate with other program leads to ensure consistency across all Canadian PIPM projects
- Support the development and implementation of TransCanada's project management standards and processes
- Aid in the co-ordination of emergency response activities

Minimum Qualifications

- University degree or technical school diploma
- Minimum of ten years of industry related experience

- Commitment to safety and the environment
- Outstanding communication (written and verbal) and interpersonal skills

Preferred Qualifications

- Graduate Engineer or equivalent, with prior experience within the pipeline industry
- Recognized Project Management training with PMP certification
- Self-starter that can work well within a team environment
- Ability to quickly understand new processes and related issues
- Good relationship building skills both internally and externally
- Demonstrated competence in guiding teams in making quality decisions
- Comfortable and skilled in influencing others at various levels in the organization
- Excellent computer skills – MS suite of tools, SAP and Sharepoint
- Strong, analytical, problem solving and negotiation skills
- Understanding of project management methodologies
