

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Help bring research to life and drive your career forward with the National Research Council of Canada (NRC), Canada's largest research and technology organization.

We are looking for a Technician, Logistics Support to support our Aerospace Research Centre. The technician would be someone who shares our core values of Integrity, Excellence, Respect and Creativity.

The purpose of the Technician, Logistics Support is to provide logistics support to the Flight Research Laboratory (FRL) by receiving, inventorying and storing materials to support the FRL's fleet of research aircraft. The Technician, Logistics Support will be required to:

- Maintain inventory control and validate equipment identification using various tools available and maintain accurate records as required;
- Support Material Planner/Facility manager to determine lead time, price and availability of requested materials; Interact with NRC Customs staff regarding cross-border shipments when necessary for both incoming and outgoing shipments;
- Receive, unpack, carry out receiving actions, and enter information for the received material into AMMS; Inventory received stock and check inventory in order to replenish stock of standard parts;
- Issues aeronautical products and common use items from the AMMS database;
- Protects assets from loss by environmental and control management;
- Package and ship non-dangerous goods;
- Arrange shipment of dangerous goods.

Contribuez a la realisation de travaux de recherche strategiques et poursuivez une carriere prometteuse au Conseil national de recherches du Canada (CNRC), la plus grande organisation de recherche et de technologie au Canada. Nous souhaitons embaucher un ou une Technicien ou technicienne, Soutien logistique en vue de soutenir le centre de recherche en aerospatiale. La personne choisie doit partager nos valeurs fondamentales relatives a l'integrite, a l'excellence, au respect et a la creativite.

Le technicien ou la technicienne, Soutien logistique, a pour mission de fournir un soutien logistique au Laboratoire de recherche en vol (LRV) en receptionnant, inventariant et stockant le materiel necessaire a la flotte d'aeronefs de recherche du LRV. Le ou la titulaire devra :

- Maintenir le controle de l'inventaire et valider l'identification de l'equipement a l'aide de divers outils disponibles et tenir des registres exacts, le cas echeant;
 - Aider le planificateur du materiel/le gestionnaire de l'installation a determiner le delai d'execution, le prix et la disponibilite du materiel demande;
 - Interagir avec le personnel des douanes du CNRC concernant les expeditions transfrontalieres, le cas echeant, pour les expeditions entrantes et sortantes;
 - Receptionner, deballer, effectuer les operations de reception et saisir les informations relatives au materiel recu dans le systeme AMMS;
- Inventorier le stock recu et verifier l'inventaire afin de reconstituer le stock de pieces standard;

- Emettre des produits aeronautiques et des articles d'usage courant a partir de la base de donnees AMMS;
- Proteger les biens contre les pertes par une gestion de l'environnement et du controle;
- Emballer et expedier des marchandises non dangereuses;
- Organiser l'expedition des marchandises dangereuses.

Experience

Basic experience in shipping, receiving, inspection, order processing and stocking of inventory material handling.

Assets:

- Experience in receipt, acceptance and validation of materials and parts, including ensuring the documentation required for the installation of parts onto Canadian registered aircraft is acceptable;
- Experience in inventory management utilizing aircraft maintenance and inventory tracking software.

Experience de base en matiere d'expedition, de reception, d'inspection, de traitement des commandes et de stockage de materiel de manutention.

Atouts :

- Experience dans la reception, l'acceptation et la validation de materiaux et de pieces, notamment en s'assurant que la documentation requise pour l'installation de pieces sur des aeronefs immatricules au Canada est acceptable;
- Experience dans la gestion des inventaires a l'aide d'un logiciel d'entretien d'aeronefs et de suivi des inventaires.

Education Requirements

College diploma or post-secondary school diploma related to the position, or equivalent combination of work experience, trade knowledge and training in inventory management processes.

Diplome d'etudes collegiales ou post-secondaire en rapport avec le poste, ou combinaison equivalente d'experience professionnelle, de connaissance du metier et de formation aux processus de gestion des stocks.

Essential Skills

Ability to confirm received part and materials meet specified requirements;

Ability to maintain store room in an organized state and ensure physical inventory and inventory system match; and

Ability to ensure shipments are properly packaged to avoid damage in shipping.

Assets:

- Ability to use specialized Aircraft Maintenance and Inventory software;
- Knowledge of operational and financial management within a large organization preferably within a Canadian federal government context;
- Knowledge of SAP, Project Systems and its integration with other parts of the business system.

Capacite a confirmer que les pieces et les materiaux recus repondent aux exigences specifiees;

Capacite a maintenir le magasin dans un etat organise et a s'assurer que l'inventaire physique et le systeme d'inventaire correspondent; et

Capacite a s'assurer que les livraisons sont adequatement emballees afin d'eviter les dommages lors de leur transport.

Atouts:

- Capacite a utiliser des logiciels specialises dans l'entretien et l'inventaire des aeronefs;
- Connaissance de la gestion operationnelle et financiere au sein d'une grande organisation, de preference dans le contexte du gouvernement federal canadien;
- Connaissance de SAP, des systemes de projet et de leur integration avec d'autres parties du systeme d'entreprise.
