

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

The OpportunitySafety-Kleen Canada is looking for an experienced and bilingual Environmental Compliance Manager to join our team! The Manager conducts formal and systematic reviews at several assigned facilities in Eastern Canada to ensure compliance with federal and provincial environmental regulations and corporate environmental policies and procedures.Why work for Safety-Kleen

- Health and Safety is our #1 priority and we live it 3-6-5!
- Competitive wages;
- Comprehensive health benefits coverage after 30 days of full-time employment;
- Group RRSP with company matching component;
- Generous paid time off, company paid training and tuition reimbursement;
- Positive and safe work environments;
- Opportunities for growth and development for all the stages of your career.

**Key Responsibilities:**

- Ensuring that Health and Safety is the number one priority by complying with all safe work practices, policies, and processes and acting in a safe manner at all times;
- Manage environmental permitting and environmental regulatory compliance activities;
- Set objectives and targets for managing environmental issues;
- Evaluate processes and procedures to manage environmental issues and incorporate operational controls, environmental roles, and responsibilities into existing facilities and individual job functions;
- Provide liability protection and risk reduction designed to prevent compliance violations as well as accidents and spills;
- Provide professional consulting services to facilities such as writing permit applications and negotiating favourable permit conditions with local, provincial, and federal regulatory agencies;
- Managing and preparing the submittal of required reports;
- Environmental systems management;
- Other duties as required.

**What does it take to work for Safety-Kleen**

- 2 &ndash; 4 years’ experience in environmental management required, preferably in an industrial or manufacturing sector;
- Candidate must be bilingual and be able to work in a French and English work environment, including speaking, reading, and writing;
- Bachelor’s degree in Environmental Science, Science or Applied Science required;
- Must be familiar with environmental regulations in Quebec, Ontario, and at the federal level;
- Must have experience with the Transportation of Dangerous Goods Regulations and applicable provincial and/or federal Fire Code;
- Environmental Professional Certification is an asset;
- Willing to travel interprovincially up to 25% of the time.
