

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Req Id:219182The Source is Canada's largest tech retailer, and every day we come into work excited to share cool tech and amazing brands with our fellow Canadians. From your local shopping centre to cool music festivals, we are where Canadians live, work and play. Every day our Associates across the country help Canadians find the tech they want and need. The Source is a great place to work and we are committed to your development through best in class training programs that help you do your best. Behind our in-store Associates is a supporting team of professionals who curate our product assortment, ensure on-time deliveries, create engaging marketing campaigns and help keep our systems running at peak capacity. We are passionate about what we do and look for individuals with their own passion, curiosity and genuine helpfulness to join us! The career you want.

Are you able to think critically, while solving problems under tight deadlines

Do you have experience with Oracle Retail and /or OBIEE

If you answered yes, our Talent Team can't wait to meet you!

As the Business Intelligence Analyst, you'll be responsible for working with all business units within The Source to obtain requirements, analyze, solution (in some cases develop), test and implement information solutions to support each of the business units objectives. You will maximize the value of existing online reference tools and reporting, and leverage their knowledge of the many sources of data available to be brought to bear to deliver both ad hoc and optimized ongoing corporate intelligence. How you can be successful:

- Work with Business partners to review new business information needs, referencing and leveraging existing online reference systems, static reporting and previous ad-hoc analyses to confirm suitability or identify gaps.
- Gather, validate and document business requirements and design elements where new capabilities are required.
- Partner with IT to develop new and enhance existing online, static and ad hoc reporting utilizing the Enterprise Data Warehouse and other applicable applications.
- Complete process mapping and documentation as required.
- Look "outside the box" to recommend new or modified business information gathering and analysis methods and procedures to improve content accuracy, timeliness and completeness.
- Work with persons originating, handling, processing, or receiving reports to identify performance or functional problems, execute root cause analysis and to gather suggestions for improvements & workarounds.
- Prepare various ad hoc analyses and reporting as required.

Skills we're looking for.

- 3-5 years experience in a similar role, with business/ information analysis and data transformation required.
- Post-secondary education in Business or equivalent.
- Microsoft Office Suite, MS Visio, and extensive MS Excel skills are required.
- Experience with Oracle Retail ERP, OBIEE, SAS & Google Analytics is preferred.
- Strong teamwork, communication, leadership and technical skills are essential to achieve optimum results.
- Must have ability to think creatively and conceptually; as well as to adapt to changing environment.
- Ability to deal with complex problems, involving multiple facets and variables in non-standardized situations
- Excellent oral, written and interpersonal communication skills with the ability to manage complex models/concepts; as well as communicate to an audience via in-person meetings and written reports.
