

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 26081

Job Overview Reporting to the project controls lead, the analyst will provide support for all phases of the project lifecycle including project set-up, estimating, funding, performance analysis & close-out. You will be a key member of the integrated project team whose primary objective will be to constructively influence the schedule and cost outcomes for the projects on which they are working. Key Accountabilities

- Build purchase requests with required backup, vendor quotes, and in alignment with supply chain management standards
- Dedicated to providing detailed reporting on funding progress, trending and forecasting (completion dates, changes in funding, concerns)
- Deep understanding of monthly reporting on incurred cost and schedule forecast before sending for the manager's review and approval
- Manage the project work cost structures, and the project network and activities in SAP
- Enter forecast into SAP by assigned deadline
- Collect and provide details for month end journal entries to align with finance standards and timelines
- Prepare, consolidate and analyze individual project or program reports for all stakeholders
- Knowledgeable of and adhere to all finance policies, ensuring that spending is in line with capital and/or expense guidelines
- Drive the closure of purchase orders, project phases and SAP tasks for the project
- Building the long range plans and budgets to develop a full understanding of the planned spending
- Protect the integrity of the investment decision by understanding the project scope and bring forward deviations as required

Required Qualifications Experience and Education:

- A degree in a related technical or business function or a diploma with 3 to 5 years related work experience
- 3-5 years' experience in project controls, planning, scheduling or project management
- Project management courses or certificates an asset.
- Previous experience from working in a chemical plant, a refinery, construction of major facilities, power generation or public infrastructure is an asset.
- High School Diploma or General Education Diploma (GED)
- Possess a valid driver's license and a clean driving record

Skills and Knowledge:

- SAP skills and SAP visualization (Knowledge in SAP Project system an asset)
- Primavera P6 and intermediate knowledge of work orders, planning, estimating cost (i.e. Work cost structure creation, management, and strategy)
- Extraordinary collaboration with key partners
- Flexibility to deal with multiple priorities in a dynamic work environment
- Intermediate proficiency in computer skills including, but not limited to, PowerPoint, SharePoint and Business intelligence
- Experience with project management and construction based metrics (productivity, performance measurement, progress tracking, etc.) and their software systems.
- Intermediate ability to translate large amounts of data and perform complex functions within Access or Excel

Working Conditions

- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory
- Relocation support will be provided; we offer highly competitive housing assistance to eligible individuals
