

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Calgary, Alberta (CA-AB)

JOB NUMBER: 26277

Job Overview Reporting to the manager, fixed equipment, you will work in the static engineered equipment sub-category and play a key role in developing and supporting various commodity strategies including pressure vessels, boilers, furnaces, and tanks. Based on experience, you may also support our on-pond assets sub-category consisting of barges, dredges, support boats and docks.

Key Accountabilities

- Lead in the areas of commercial strategy development, contract negotiation and contract development
- Facilitate the implementation and establishment of developed strategies throughout the organization
- Develop and apply a deep understanding of business demand and market conditions
- Play a key role in the creation of long term initiatives for the optimization of contract formation and execution for your category
- Develop the commercial strategy for the services or materials to continuously improve our current systems
- Support and manage lifecycle contract activities while continuously improving, evaluating and analyzing commercial models for optimal business solutions
- Oversee the process for contractor performance management activities and continue to build positive contractor relationships
- Collaborate closely with the business unit stakeholders and external contractors in order to drive value in your category

Required Qualifications Experience and Education:

- At least eight years of experience in defining and implementing commercial strategies to achieve business goals and objectives, including negotiating high value contracts
- Oil and gas experience is preferred
- Preference for experience in static engineered equipment, on-pond assets, strategy formulation, and drafting contracts
- Post-secondary degree required, preferably in business, law or engineering

Skills and Knowledge:

- Deep understanding of category management practices with the ability to deliver solutions to diverse groups, including in-depth knowledge of corporate governance, policies and procedures and contracting practices
- Demonstrated skills in business partner relationship management and continuous improvement applications
- Results-oriented and able to drive both execution and accountability from both internal stakeholders and contractors
- Strong attention to detail and the ability to maintain an analytical focus
- Strong communication skills, both oral and written, which allows you to take complex issues and distill them down into easy to understand concepts

Working Conditions

- Minimal travel may be required to Suncor sites within Canada and the U.S.

Why Suncor? We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand.
