

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Process Automation Engineering Student

Job ID	529557200-7797	
Web Address	https://careers.indigenous.link/viewjob?jobname=529557200-7797	
Company	Suncor	
Location	Sarnia, Ontario	
Date Posted	From: 2019-01-14	To: 2050-01-01
Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Sarnia, Ontario (CA-ON)

JOB NUMBER: 27290

Why you should join us: Student positions (including co-ops and interns) at Suncor are more than just a work term. They provide you with significant and meaningful work experiences to help enable you to figure out where you want your career to go; better yet, many of our students go on to become permanent Suncor employees after they graduate! You will work side-by-side with some of the most talented people in the energy industry, and your work assignments and mentoring will offer you outstanding academic and career growth. Come and join our process automation team at our Sarnia refinery and build your resume with a company that offers challenges, respect, support, and some fun along the way. As the Process Automation Intern, you will be an integral part of the team, working with some of the latest control systems in an industrial production environment. You will be given an excellent opportunity to develop process engineering, process control and project management skills. You will use your expertise to:

- Assist with process control maintenance, development and improvement projects
- Analyze process control performance and investigate issues to determine appropriate solutions
- Work closely with other teams in engineering, operations and maintenance
- Perform mass and energy balances
- Provide support to problem solving activities using KT
- Analyze refinery process operations
- Produce support for updates to the refinery planning tools
- Build macros and programs to improve data acquisition and analysis
- Oversee and facilitate site wide United Way initiatives by acting as central contact focal

We'd like to review your application if you have: Must-haves (minimum requirements):

- Current enrolment in a formal chemical engineering co-op program at an accredited post-secondary institution, and returning to full-time studies after the work term
- (Attach your transcripts with your application and indicate your work term availability)
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Prior oil and gas industry experience
- Familiarity with refining processes or continuous manufacturing processes involving pressure, temperature and flow controls is an asset
- Advanced computer skills, specifically in Microsoft Word and Excel, as well as an interest to learn and use Visual Basic and Access
- A motivated self-starter who can work well both independently and within a team environment
- Strong analytical and problem-solving skills as well as good time management skills, with the ability to multi-task effectively

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Sarnia refinery in Ontario, located at 1900 St. Clair Parkway
- Hours of work are a regular 40-hour work week, Monday to Friday, with the potential for extended work hours based on business needs
- This is a 16-month work term, from May 2019 to September 2020

Why Suncor: Start your career at Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn and grow in a variety of career-building positions. We live by the value of safety above all else; do it safely, or don't do it. Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about our mission, vision and values. Stay connected to us:

- Follow us on LinkedIn, Facebook and Twitter for the latest job postings and news
 - Join our Talent Community and sign up to receive customized job alerts
 - Read our Suncor Connections newsletter to see what we're doing in the communities we live and work in
- We are an equal opportunity employer and encourage applications from all qualified individuals. We are committed to providing a diverse and inclusive work environment where every employee feels valued and respected. We will consider accessibility accommodations to applicants upon request. Please note that our job postings are typically open for two weeks, so don't delay, apply now. JOB CATEGORY: Students & New Grads
