

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Montreal, Quebec (CA-QC)

JOB NUMBER: 27122

Why you should join us: Are you passionate about safety, building positive relationships and, working within a strong team environment? If you are, mechanically savvy and highly motivated, then we have the role for you! You will be a key member of a team responsible for all activities needed to ensure the safe and reliable functioning of our Montreal sulphur plant. You will use your expertise to:

- Identify the plant's deviations, communicate them verbally or in writing, and take the appropriate corrective measures
- Participate in the mechanical integrity program by conducting inspection rounds
- Ensure the recording of all production and inventory data
- Address the loading and unloading operations for raw materials and finished products
- Conduct sampling and perform all required laboratory analysis, interpret the results and take the appropriate corrective actions in case of deviation from the specifications
- Enforce the work permit system for work to be done at our sulphur plant, and be sure to identify and analyze all risks prior to permit issuing
- Prepare, secure and lock out equipment according to current procedures
- Ensure effective communication, both verbally and in writing, during shift changes
- Respond to emergencies according to your assigned role and responsibilities by enforcing procedures
- Participate in the continuous improvement process by enforcing and reviewing existing procedures and suggest changes if necessary
- Identify and prepare your personal development plan with your supervisor in order to be able to lead a work team when working as a boardman

We'd like to review your application if you have: Must-haves (minimum requirements):

- 10 years of relevant experience in chemical processes or DEC or AEC (diploma or attestation of college studies) in chemical process techniques
- A Class 4 stationary machinery mechanic's licence with a valid driver's licence and a clean driving record

- Fluency in French, with functional written and spoken English
- Basic computer literacy (Microsoft Outlook, Word and Excel)
- Excellent communication, analytical, troubleshooting and social skills with the ability to readily collaborate with others in order to achieve the best results
- Strong prioritization skills and the drive to be a self-starter and take action as required
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Where you'll be working, your work schedule, and other meaningful information:

- You will work at our Montreal sulphur plant, located at 11450 Cherrier Street East
- You will work 12-hour rotating shifts, alternating between days and nights
- This is an entry-level position within the progression of the sulphur plant's operations group. The work schedule will be full-time, but hours may vary when providing coverage for other teams and according to business needs
- Physical capacity to work at height, in enclosed spaces and with air supply
- Availability to work overtime when required
