

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Calgary, Alberta (CA-AB)

JOB NUMBER: 27615

Why you should join us: We are looking for a geotechnical engineer who is experienced in operationalizing geotechnical designs and solutions to join our Geo Services Engineering team. We believe in hiring great people to build a world-class team and in this role we will build on your experiences and knowledge to help guide technical support, governance and advise management on geotechnical risks. In this exciting opportunity, you will implement and monitor our tailings facility and dam safety systems governance and you will provide senior-level review of geotechnical work and practices. You will use your expertise to:

- Commit and dedicate yourself to working on projects for design, construction, operations, performance and closure
- Take pride in establishing constructive relationships within Suncor and our external partners
- Review geotechnical documentation for technical consistency and completeness
- Present projects to independent review boards for risk identification
- Mentor, lead and develop our engineers to grow technically and professionally
- Apply critical thinking and explore assumptions, conclusions and make constructive recommendations
- Contribute to a team environment while at times working independently

We'd like to review your application if you have: Must-haves (minimum requirements):

- 20 years of relevant engineering experience in large civil earthworks projects, which include design, construction and operations
- Experience in the oil sands or mining environment
- Engineering degree in Civil, Geological, or Mining
- Current registration or eligible to register immediately as a Professional Engineer with APEGA
- A valid driver's licence and a clean driving record
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Master's degree in Geotechnical Engineering
- Knowledge of geology and hydrogeology

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Calgary head office, located in the Suncor Energy Centre at 150 – 6th Ave S.W.
- Hours of work are a regular 40-hour work week, Monday to Friday
- Travel to site as necessary

Why Suncor: We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn, contribute, and grow in a variety of career-building positions. We live by the value of safety above all else; do it safely, or don't do it. Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about our mission, vision and values. In addition to rewarding job opportunities, we offer an attractive employee package, including:

- Competitive base salary, compensation programs, and an annual incentive program
- Flexible benefits package
- Rewarding pension and savings plans

Stay connected to us:

- Follow us on LinkedIn, Facebook and Twitter for the latest job postings and news
- Join our Talent Community and sign up to receive customized job alerts
- Read our Suncor Connections newsletter to see what we're doing in the communities we live and work in

We are an equal opportunity employer and encourage applications from all qualified individuals. We are committed to providing a diverse and inclusive work environment where every employee feels valued and respected. We will consider accessibility accommodations to applicants upon request. Please note that our job postings are typically open for two weeks, so don't delay, apply now. JOB CATEGORY: Engineering
