

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company Suncor

Location Fort McMurray, Alberta

Date Posted From: 2019-03-20 To: 2050-01-01

Job Type: Full-time Category: Resource Sector

Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 27991

Why you should join us:Are you a Mine Engineer looking to take the next step in your career As a member of our best in class mine engineering team, you will be required to apply a broad spectrum of mine engineering principles to support the execution of mine plans. Our mine engineers work on the development of the Millennium and North Steepbank mines, which combined, produce over 1 million tonnes per day. Our operation is innovative and ever-changing, with initiatives such as autonomous haulage and PASS tailings treatment technology leading the way into the future. You will use your expertise to:

- Collect, document and assess engineering data within the mine to improve efficiency
- Provide mine plan guidance to both technical and mine operations personnel
- Craft execution plans, incorporating sound mining principles such as productivity, geological and geotechnical risks, mining rates and equipment capabilities
- Build mining and construction schedules that meet the needs of both internal and external partners
- Analyze technical data in real-time and provide analysis to assist with daily/weekly plan execution
- Record and control mine engineering-related information to generate monthly reports
- Align with and act as a role model for corporate and work location safety policies, procedures and practices
- Plan for the reclamation and sustainability of our operations
- Provide technical planning for our autonomous operation

We'd like to review your application if you have…Must-haves (minimum requirements):

- Three years of experience in earthworks or surface mining
- A Bachelor's of Science or Engineering degree in Mining, Civil, Materials, Geological or Environmental
- Eligibility for membership with the Association of Professional Engineers, Geologists and Geophysicists of Alberta (APEGA)
- A valid driver's licence and a clean driving record
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing
- A continuous improvement mindset and are able to seek greater knowledge and understanding of

the systems, process and hazards in the workplace

- The ability to work in a multidisciplinary, integrated team environment
- Well-developed critical thinking skills, with an ability to apply logic and challenge assumptions, conclusions and make appropriate recommendations

Where you' Il be working, your work schedule, and other meaningful information:

- You will work out of our Base Mine in Fort McMurray, Alberta
- Hours of work are a regular 40-hour work week, Monday to Friday
- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory. Relocation support will be provided; we offer highly competitive housing assistance to eligible individuals SAP:ENG
