

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Calgary, Alberta (CA-AB)

JOB NUMBER: 28041Why you should join us:Student positions at Suncor are more than just a work term. They provide you with significant and meaningful work experiences to help enable you to figure out where you want your career to go – better yet, many of our co-op students go on to become permanent Suncor employees after they graduate! You will work side-by-side with some of the most talented people in the energy industry, and your work assignments and mentoring will offer you outstanding academic and career growth.You will have the chance to develop your professional skills and explore how Health and Safety functions within an organization and see firsthand how important this group is within a global company.You will use your expertise to:

- Assist the team with budget, schedule and contracts for various areas of the organization
- Work on related programs, regulatory compliance, emergency management and our operational excellence management system
- Assist with providing data to diverse groups and help analyze information
- Help to build, distribute and present topical safety communications (alerts, safety moments etc.)

We’d like to review your application if you have…Must-haves (minimum requirements):

- Current enrollment in a formal co-op or internship program in 3rd or 4th year Health and Safety at an accredited post-secondary institution, and returning to full-time studies after the work term
- (Attach your transcripts with your application and clearly indicate the length of work term for which you are available)
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Accuracy, attention to detail and the ability to analyze is fundamental to your success in this role
- Intermediate to advanced proficiency in Microsoft Office suite, particularly Excel
- A continuous improvement mindset and are able to seek greater knowledge and understanding of the systems, process and hazards in the workplace
- A zero-tolerance for shortcuts, and if the procedure is incorrect, you fix it

Where you’ll be working, your work schedule, and other meaningful information:

- You will be based in Calgary, Edmonton, Fort McMurray or Fort Hills
- This is an 8 – 12 month work term, from September 2019 – August 2020
- Some of these positions have been identified as safety sensitive

Why SuncorStart your career at Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand.
