

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Montreal, Quebec (CA-QC)

JOB NUMBER: 28318 Why you should join us: Are you a self-starter and strong problem solver who is passionate about safety and building positive relationships? Do you have a desire to be part of a versatile and multifunctional team and are you motivated to join Suncor as an Instrumentation Technician? In this role, you will be responsible for the coordination and completion of corrective, predictive and preventative maintenance programs and repairs at our Montreal sulphur plant. You will use your expertise to: Ensure that the tasks performed comply with the sulphur plant's rules and regulations as it pertains to the health and safety (H&S) and the environment. Install, inspect, maintain and repair all equipment under the care and responsibility of the department. Carry out preventive maintenance, such as instrument calibration. Execute and document all maintenance activities and the maintenance process. Manage all related tasks assigned, such as monitoring confined spaces, providing first aid, or helping a colleague with a mechanical task. Collaborate with the plant's snow removal and de-icing efforts in wintertime when required. Request and track quotes from our suppliers as necessary. Comply with the electrical code.

We'd like to review your application if you have: Must-haves (minimum requirements): Fluency in French (oral and written). Two years of relevant work experience with knowledge of the maintenance of the various control instruments used for industrial chemical processes and the application of technical requirements and quality standards in the petrochemical sector. A post-secondary education in instrumentation and controls or the equivalent education in a related field. A valid driver's licence and a clean driving record. Exceptional knowledge of current industry rules and practices in H&S. Strong knowledge of instrument programming procedures (Field Care software, ASM, etc.) and BMS systems. The ability to understand and analyze plot plans, diagrams, schematics and control logic. A familiarity with distributed control systems and the ability to adjust control loops. Strong proven troubleshooting skills and the ability to make timely decisions. Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing.

Preference for: Fluency in English (oral and written). Non-construction electrical licence.

Where you'll be working, your work schedule, and other meaningful information: You will work at our Montreal sulphur plant, located at 11450 Cherrier Street East. Hours of work are a regular 40-hour work week, Monday to Friday. You will need to be available to work overtime outside of normal working hours, as required. This position is safety sensitive. You will need to use tools at your disposal to lift heavy loads on occasion. You will be required to work at heights on platforms or with mobile lifting equipment. You will have to work in a variety of environments, both indoor and outdoor, in confined spaces and at times with respiratory protective devices.
