

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company	Suncor	
Location	Calgary, Alberta	
Date Posted	From: 2019-05-14	To: 2050-01-01
Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Calgary, Alberta (CA-AB)

JOB NUMBER: 27857

Why you should join us: Do you want to be an integral part of a specialized simulation team which has the vision of becoming a Simulation Centre of Excellence This role offers a great opportunity to work with high visibility corporate projects across a wide variety of technologies, from disruptive (solvents and novel processes) through to continuous improvement initiatives (wellbore enhancements). You will use your expertise to: Support a strategy build by testing, obtaining approval and plan implementation with a view of creating a Simulation Center of Excellence Provide simulation support to in situ resources and strategic technology teams - design and execute simulation plans with high quality and on schedule Recommend and coordinate special reservoir studies related to modeling and lab work Support our strategic technology team in identifying and progressing opportunities and technologies to improve economic and sustainability metrics We'd like to review your application if you have... Must-haves (minimum requirements): 10 years of related experience A professional engineering designation through APEGASimulation experience in thermal processes (SAGD) Demonstrated experience in applying reservoir engineering fundamentals (PVT, SCAL, capillary pressure, etc.) Exceptional organization and communication skills, and the ability to work in a team environment A proven ability to manage numerous projects and changing priorities under tight deadlines The ability to create a strong internal and external network that nurtures development and generation of new ideas into tangible results Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for: Simulation experience in solvent, geomechanics and wellbore modelling

Where you'll be working, your work schedule, and other meaningful information: You will work out of our Calgary head office, located in the Suncor Energy Centre at 150 – 6th Ave S.W. Hours of work are a regular 40-hour work week, Monday to Friday

Why Suncor We are Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn, contribute, and grow in a variety of career-building positions. We live by the value of safety above all else Ó do it safely, or don't do it.

Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about our mission, vision and values. In addition to rewarding job opportunities, we offer an attractive employee package, including:

- Competitive base salary, compensation programs, and an annual incentive program
- Flexible benefits package
- Rewarding pension and savings plans

Stay connected to us:
