

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Mississauga, Ontario (CA-ON)

JOB NUMBER: 29171 Why you should join us: Are you a C# or .Net programmer If so, we have an exciting opportunity for you to maintain, improve and ensure reliable operations of our proprietary Car Wash application that supports our Petro-Canada retail network across Canada. This is a distributed system requiring many disparate skillsets including Graphical User Interface (GUI) programming; network programming; concurrency; database design and query tuning; web application development; integration with other corporate systems; and ad-hoc reporting and analysis. You will use your expertise to:

- Provide 24/7 technical support of national Car Wash systems (host based systems built on C# and .Net framework)
- Ensure all programming and design follows enterprise standards and policies
- Assist in designing solutions for business demands for projects and present options through the change management process to our business partners
- Design, develop, test and conduct implementation of demand and service requests
- Conduct dashboard monitoring to ensure reliable operations and maximal uptime of host systems
- Act as the main point of contact for Car Wash Dashboard (host level) related questions and issues
- Work with various business groups related to Operations responsibilities

We'd like to review your application if you have... Must-haves (minimum requirements):

- Five years of experience programming in C# and .Net
- A post-secondary degree or technical diploma in computer science Proficiency with SQL, DB2, Networking (TCP/IP), Javascript, and a functional language (Elm, Haskell, Erlang, etc.), WCF and WPF Strong working knowledge of database concepts: indexing; query plans and query hints; locking; transaction isolation levels; normalization Proficiency with software development practices (version control; unit testing), and performance profiling and debugging Proven communication skills with the ability to communicate directly with diverse groups (business and technical) to identify needs, solve problems, collaborate on new designs and write technical documentation An adaptable, self-starter approach and you are a quick learner absorbing large legacy codebases and new languages/frameworks Proven analytical, decision-making and problem solving skills and good attention to detail and documentation skills Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Where you'll be working, your work schedule, and other meaningful information:

- You will work out of our Downstream head office in Mississauga, located at 2489 North Sheridan Way

- Hours of work are a regular 40-hour work week, Monday to Friday, with the potential for extended work hours based on business needs

- Occasional travel to retail sites is required to implement and monitor new IT solutions
