

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Calgary or Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 28036

 Why you should join us:"If you are a mining student looking to start a career in the energy industry, Suncor is the place to be!" - Thomas, Engineer-in-Training and previous student at Suncor
Student positions (co-ops and interns) at Suncor are more than just a work term. They provide you with significant and meaningful work experiences to help enable you to figure out where you want your career to go – better yet, many of our students go on to become permanent Suncor employees after they graduate! You will work side-by-side with some of the most talented people in the energy industry, and your work assignments and mentoring will offer you outstanding academic and career growth. You will have the opportunity to work closely with Professional Engineers and Engineers-in-Training who will provide you with mentorship and guidance. You will also gain the skills necessary to properly define problems, develop solutions, analyze alternatives and assess your impact on our operations. We have many different positions available within our mining group - see below for a quick snapshot of what you'll be doing, depending on the role. You will use your expertise to:

- Short Range Planning:
- Export survey limits and produce ore inventory spreadsheets
- Build and/or print weekly plan maps and design reserve polygons which are required for dispatch
- Collaborate small scale projects such as road design or small civil designs

Short Range Tailings Planning:

- Support coarse tailings and fine tailings engineering groups
- Craft weekly coarse tailings plans for operations and maintenance
- Assist with government reporting in respect to Directive 85
- Collaborate on small scale design projects

Mine Operations Support:

- Collaborate as a member of the leadership team that lead the mine’s day-to-day operations
- Assist with contractor production tracking, management and execution
- Provide technical support to all members of the mine operations team
- Undertake a range of business optimization cases and cost saving initiatives

Long Range and Tailings Planning:

- Maintain and use models that simulate both mining and tailings activities

- Balance haul distances and overburden fleets
 - Provide support to the capital and development projects and assist with annual reporting
- We'd like to review your application if you have...
- Must-haves (minimum requirements):**
- Current enrolment in a formal co-op or internship program in 2nd, 3rd or 4th year Mine Engineering, Civil Engineering, Geotechnical Engineering or Geology at an accredited post-secondary institution, and returning to full-time studies after the work term
 - (Attach your transcripts with your application and indicate your work term availability)
 - A valid driver's licence and a clean driving record
 - Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Extraordinary computer skills with intermediate to advanced proficiency in the Microsoft Office suite, particularly Excel
- Deep understanding of oil and gas production and processing
- Excellent written and verbal communication, administration and organizational skills
- A continuous improvement mindset and are able to seek greater knowledge and understanding of the systems, process and hazards in the workplace
- A zero-tolerance for shortcuts, and if the procedure is incorrect, you fix it

Where you'll be working, your work schedule, and other meaningful information:

- You will be based in Calgary, Edmonton, Fort McMurray or Fort Hills
- This is an 8 – 12 month work term, starting in May 2019
- Some of these positions have been identified as safety sensitive
- Relocation support will be provided; we offer highly competitive housing assistance to eligible candidates
- Your work schedule will be determined based on the position requirements

Why Suncor Start your career at Canada's leading integrated energy company with a business portfolio that includes oil sands development and upgrading, offshore oil and gas production, petroleum refining, and product marketing under the Petro-Canada brand. Our global presence offers rewarding opportunities for you to learn and grow in a variety of career-building positions. We live by the value of safety above all else – do it safely, or don't do it. Our strong track record of growth and a focus on sustainability mean tremendous potential for the future. Learn about our mission, vision and values. Stay connected to us:

- Follow us on LinkedIn, Facebook and Twitter for the latest job postings and news
- Join our Talent Community and sign up to receive customized job alerts
- Read our Suncor Connections newsletter to see what we're doing in the communities we live and work in

We are an equal opportunity employer and encourage applications from all qualified individuals. We are committed to providing a diverse and inclusive work environment where every employee feels valued and respected. We will consider accessibility accommodations to applicants upon request. Please note that our job postings are typically open for two weeks, so don't delay, apply now.
