

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Electrical Instrumentation & Controls Technician - Rocky Mountain Region Reference Code: 58346

Location: Canada (CA) - Airdrie, AB Job Category: Operations; Trades/Technical Employment Type: Employee Full-time Relocation Eligibility: This position is eligible for our domestic relocation program Application Deadline: 07/22/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity TC Energy is seeking a skilled Electrical Instrumentation & Controls (EI&C) Technician to join our Canada Gas Operations team in Airdrie, AB. Reporting to the Rocky Mountain Pipeline Manager, as an EI&C Technician we will rely on you to repair, install, troubleshoot, and perform other planned maintenance and corrective tasks on assigned electronic, electrical, pneumatic and/or mechanical control systems, devices, and ancillary equipment. In this role you will also operate and maintain a mobile natural gas compressor and auxiliary equipment, in a manner to meet operational needs, in compliance with Company and regulatory requirements. You will maintain core operational task qualifications and perform tasks from other disciplines. This position will regularly require you to travel away from your base location, operating a mobile compressor unit at other Company facilities across Canada. Travel will consistently be 50% or more of your regular work schedule. This position is overtime eligible, part of an on-call rotation and provides emergency support as required. What you'll do

- Independently perform installation, testing, repair, and maintenance on compressor station equipment, and other facilities relevant to the pipeline system as required
- Troubleshoot, test and maintain shutdown devices, fire and gas systems, auxiliary systems, HVAC systems, relief and Over Pressure Protection devices, control valves, PLC's and control systems
- Install and configure software in control systems
- Perform routine and major maintenance on gas turbine packages, gas compressor units, and associated auxiliary equipment, assist with pipeline asset maintenance
- Perform emergency repairs to meet customer and client needs
- Oversee the safe and efficient completion of projects
- Active control of contractors
- Ensure facilities and personnel comply with the Company's safety, health, environment, and risk standards
- Procure resources and manage within budgets for the facilities
- Provide support to our business partners as required
- Other tasks as required

Minimum Qualifications

- High school diploma or equivalency (GED)
- Fully certified Journey person Electrician Technician
- Minimum 5 years of industry relevant experience
- An alternate combination of education and experience may be considered
- Willing to travel when required by business / operational needs & minimum 50% of work schedule

Preferred Qualifications

- Instrumentation experience would be considered an asset as this is a cross-functional operations area
- Dual-ticket (Electrician & Industrial Instrumentation) would be considered a strong asset
- Experience working with high pressure natural gas
- Fully competent and current with all Health, Safety and Environment standards and training
- Excellent analytical and troubleshooting skills
- Mechanical aptitude
- Previous experience with Allen Bradley PLC5 and RsLogix 5000
- Competent using equipment applicable to the maintenance of control systems
- Highly motivated with interpersonal skills to effectively work in a collaborative team environment that includes shared responsibilities
- Current with technological advances in the compression field
- Familiarity with SAP and Microsoft Office suite (Excel, Word, Outlook)

- Demonstrated effective written & verbal communication skills

*This position requires candidates to:

- Have and maintain a valid Driver's License

- Provide a driver's abstract for review

- Successfully complete a pre-employment medical screening, including drug and alcohol testing
