

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job Type: Full-time Category: Resource Sector

Description

Environment Advisor - Environmental Performance ManagementReference Code: 59233

Location: Canada (CA) - Calgary, AB Job Category: Health, Safety, EnvironmentEmployment Type: Employee Full-timeRelocation Eligibility: This position is not eligible for our relocation programApplication Deadline: 08/02/2019 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The OpportunityReporting to the Manager, Environmental Governance and Programs, this position is responsible for supporting the Environment Program. The Environment Program aligns to TransCanada's Operational Management System and supports managing risk, increasing public confidence and gaining permission to construct and operate. This position is responsible for ensuring that environment-related incidents, nonconformance's, noncompliance's and opportunities for improvement are reported, assessed and investigated according to TC Energy's internal requirements. What you'll do

- Ensure environmental performance indicators are developed to measure and monitor business performance with respect to the Environment principles
- Report, document, review and/or investigate and action environment-related incidents, near hits, hazards, issues and non-compliances and non-conformances
- Provide SAP coaching/training, testing of enhancements, bug fixes
- Review all SAP entries for completeness of information
- Provide guidance, attach documents and close items in SAP
- Provide training and communication specific to environment events
- Conduct analysis on data to identify trends and opportunities for improvement in Environmental Performance

- Collect and analyze process data to initiate, develop and recommend business practices and procedures that focus on enhanced performance, increased productivity and reduced cost
- Prepare monthly, quarterly and annual dashboards for Environment Program
- Prepare presentations of environmental performance metrics for Director and Vice President, Board of Directors, President's Report, HSEC Meetings, Environment Week
- Gather and prepare information for external enterprise reporting
- Stay aware of industry trends for environment performance metrics and ensuring the company is current with industry best management practices
- Research best business practices within and outside the organization to establish benchmark data
- Update processes and procedures to reflect process improvements

Minimum Qualifications

- Minimum 4 or more years of experience in related work such as: environmental performance reporting, incident management, environmental management systems, and environmental compliance
- Relevant University degree, HSE Certificate, Environmental Science degree and/or equivalent work experience in related fields, ISO 14001 certification or equivalent
- Strong communication and interpersonal skills, with the ability to effectively communicate with all stakeholders from grass-roots to senior policy-makers
- Knowledge of key elements of Environmental Management Systems.

Preferred Qualifications

- Knowledge of environmental laws/regulations and practices pertaining to pipeline and/or other energy infrastructure operations
- Advanced data management and analytical ability to gather and evaluate complex information obtained from a variety of sources
- Strong communication and interpersonal skills with the ability to effectively communicate to all stakeholders
- Good working knowledge of IT processes, experience with SAP is an asset
- Innovative ability to work and contribute in a team environment
- Intermediate to advanced working knowledge of Excel
- Strong research skills
- Strong problem solving and decision-making skills to resolve complex and ambiguous issues.
