

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 31152Why you should join us:Are you looking for a great opportunity to succeed in an ever-changing and dynamic maintenance engineering role Imagine a job where you can use your positive work ethic, initiative and real passion for maintenance engineering to make a difference. You will report into the mine mobile equipment reliability team, and will provide engineering support for our Shovels equipment fleet in the mine.You will use your expertise to:

- Provide technical guidance, solutions and troubleshooting support to the maintenance shop and field technicians

- Use root cause analysis methods for asset and process failure elimination

- Develop technical repair scopes to support the maintenance organization

- Review and update GET performance to support improvements

- Perform both failure analysis and incident investigations to drive learnings and prevent reoccurrence.

- Assist Maintenance organization with shop tooling solutions

- Identify bad actors within the shovels mobile equipment fleet

- Steward cross-boundary relationships with our maintenance and operation teams

- Review fleet key performance indicators to gauge performance and opportunities

We'd like to review your application if you have…Must-haves (minimum requirements):

- Up to six years of experience with Shovels equipment maintenance and reliability engineering; mentoring and coaching will be provided to new grads with limited experience

- Experience with development of predictive and preventative maintenance strategies

- A Bachelor's degree in mechanical engineering

- Registered or immediately eligible for registration as a Professional Engineer with the Association of Professional Engineers and Geoscientists of Alberta (APEGA)

- Possess a valid driver's licence and a clean driving record

- Demonstrated proficiency in Microsoft Office suite

- Well-developed critical thinking, with an ability to apply logic and challenge assumptions

- The ability to anticipate potential problems and check for out-of-the-ordinary conditions, as well as having a strong sense of accountability

- A continuous improvement mindset and are able to seek greater knowledge and understanding of

the systems, process and hazards in the workplace

- A zero-tolerance for shortcuts, and if the procedure is incorrect, you fix it
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Working knowledge of SAP, Livelink and Meridium

Where you'll be working, your work schedule, and other important information:

- You will work out of our Base Plant Mine in Fort McMurray, Alberta
- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory. Relocation support will be provided; we offer highly competitive housing assistance to eligible individuals
- The shift schedule is a seven days on/ seven days off rotation; 12 hour shifts
- This position has been identified as safety sensitive
