

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

LOCATION: Fort McMurray, Alberta (CA-AB)

JOB NUMBER: 31919 Why you should join us: Are you committed to the laws, regulations and policies concerning environmental issues? Working on a team within the Environmental and Regulatory area, you will support the environmental compliance and reporting needs of our Oil Sands Upgrading Operations. You will use your expertise to:

- Provide regulatory leadership for incidents, including writing clear follow-up letters, forms, and reports to regulators, as required by legislation, and track environmental incidents
- Manage and coordinate environmental contractors and consultants who conduct surveys and gather data at the site
- Conduct internal inspections in order to improve environmental compliance
- Coordinate inspections, investigations, and site visits by regulators at the plant
- Obtain short term operational authorizations and provide notice of outages and operational changes to Federal, Provincial and Municipal regulators, as necessary for the continued operation of the plant
- Train operational staff regarding regulatory compliance and the continuing importance of environmental protection in a cost constrained production setting

- Record, file, interpret and disseminate regulatory correspondence

- Work with internal teams on environmental projects

- Develop, update, and facilitate training for various environmental programs/initiatives

We'd like to review your application if you have: Must-haves (minimum requirements):

- Strong experience and knowledge of oil sands and industrial operations
- A Bachelor's degree in Engineering or Science, or Environmental Technology diploma
- Outstanding communication skills (both written and verbal) with strong collaboration skills that enables you to build strong, positive relationships with diverse groups
- A confirmed ability to handle conflict and influence decisions
- The ability to anticipate potential problems and check for out-of-the-ordinary conditions, as well as having a strong sense of accountability
- The ability to remain organized and able to self-prioritize work and handle multiple tasks/request from a variety of people
- A valid driver's licence and a clean driving record
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Experience working with Provincial and Federal regulatory acts and regulations (e.g. EPEA, OSCA, Fisheries Act, RMWB Land Use Bylaw)
- Previous experience working directly in the field

Where you'll be working, your work schedule, and other important information:

- You will work out of our Base Plant Mine in Fort McMurray, Alberta
- Hours of work are a regular 40-hour work week, Monday to Friday
- If you reside outside of Fort McMurray, relocation of your primary residence to within 60 km of Fort McMurray is mandatory
- Team members carry the environmental on-call hotline phone on a rotating 24-hour basis, and attend the on-site emergency operations centre, if required, during major incidents
