

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Link's Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Job	Type: Full-time	Category: Resource Sector

Description

LOCATION: Fort Hills, Wood Buffalo, Alberta (CA-AB)

JOB NUMBER: 32219Why you should join us:Would you like to be a part of an open-pit truck and shovel mine with an expected lifespan of 50 years If so we have an exciting new opportunity for a Mine Drainage Technician. Your main responsibility will be to move water safely and efficiently while protecting the environment. You will use your expertise to:

- Build, operate and maintain surface dewatering infrastructure - sumps, ditches, culverts, berms, drains, HDPE lines
- Fuse HDPE pipe
- Complete ponds inspection and pump rounds
- Complete winterization and spring run-off readiness activities
- Operate heavy equipment: excavators, dozers, graders, and loaders

We'd like to review your application if you have...Must-haves (minimum requirements):

- Two years of experience with construction of drainage systems (civil works background or commercial / residential buildings)
- A proven safety training and outstanding safety record
- A basic knowledge of hydraulic systems
- Previous experience with pumps, centrifuge systems or dredging and dewatering systems
- A High School Diploma or General Education Diploma (GED)
- Excellent communication skills and a willingness to train and provide mentorship to others
- A continuous improvement attitude and are able to seek greater knowledge and understanding of the systems, process and hazards in the workplace
- A zero-tolerance for shortcuts, and if the procedure is incorrect, you fix it
- Alignment with our values of: safety above all else, respect, raise the bar, commitments matter and do the right thing

Preference for:

- Previous experience operating heavy equipment while building dewatering systems

Where you'll be working, your work schedule, and other important information:

- You will work out of our camp-based Fort Hills mining site, located in Alberta's Athabasca region, 90 kilometres north of Fort McMurray, Alberta
- The shift schedule is a 7 days on /7 days off rotation (7 days on, 7 days off, 7 nights on, 7 nights off; 12-hour shifts)
- This position is safety sensitive
- The roles requires working outdoors in harsh weather conditions
