

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Position Description:

We are Canada's largest independent information technology services firm, and after 40 years, we're still growing! Join Canada's largest IT Company as Senior Cloud Engineers (GCP) with our Banking team in Toronto.

Innovation, technology, and service delivery are our focus. Our goal is to ensure our clients remain ahead of the competition. We provide a full spectrum of managed services from IT and business process outsourcing to systems integration and consulting that are transforming our clients' operations and helping them to succeed.

This role is hybrid and requires you to be in client offices Toronto Downtown at least once a week. - subject to change at any time.

**MUST HAVE:**

Google Cloud Platform (GCP) developer

it's important that the candidate has hands-on GCP development experience.

- 3-10 years of working experience as a Google Cloud Platform (GCP) developer
- Experience with the primary managed data services within GCP, including DataProc, Dataflow, BigQuery/DBT, Cloud Spanner, Cloud SQL, Cloud Pub/Sub etc.
- Experience with Google Cloud Platform Databases (SQL, Spanner, PostgreSQL)
- Experience working with relational/NoSQL databases-
- Experience with data streaming and technologies such as Kafka, Spark-streaming etc.
- Experience with Infrastructure as Code (IaC) practices and frameworks like Terraform
- Knowledge of Java microservices and Spring Boot

**Skills:**

- Big Data
- DevOps
- NoSQL
- Real-Time Appliance
- Financial Services

**What you can expect from us:**

Together, as owners, let's turn meaningful insights into action.

Life at CGI is rooted in ownership, teamwork, respect and belonging. Here, you'll reach your full potential because...

You are invited to be an owner from day 1 as we work together to bring our Dream to life. That's why we call ourselves CGI Partners rather than employees. We benefit from our collective success and actively shape our company's strategy and direction.

Your work creates value. You'll develop innovative solutions and build relationships with teammates and clients while accessing global capabilities to scale your ideas, embrace new opportunities, and benefit from expansive industry and technology expertise.

You'll shape your career by joining a company built to grow and last. You'll be supported by leaders who care about your health and well-being and provide you with opportunities to deepen your skills and broaden your horizons.

Come join our team-one of the largest IT and business consulting services firms in the world.
