

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Requisition ID: 193501

Join a purpose driven winning team, committed to results, in an inclusive and high-performing culture. The TeamThe Solutions Architect works with multiple technology teams and ensures that the applications architecture and infrastructure supporting major, highly complex applications are designed to meet evolving business requirements and meet standards for reliability, scalability and availability. The incumbent will provide architecture and technology guidance on all projects to ensure consistency in approaches and to optimize technology synergy. The Solutions Architect also provides expertise and counsel ensuring technology teams and business areas understand all the options and technology choices in support of their business. The Solutions Architect has a technology and business understanding with strong communication and facilitation skills with the ability to influence others. The Solution Architect provides expert advice and counsel to Corporate, Business Partner and/or IT areas on complex issues related to area of specialty. This position may have multiple concurrent initiatives occurring at any one time. The incumbent must ensure high availability, integrity and reliability of programs developed where the consequences of error could expose the Bank to a significant loss or undue risk. Is this role right for you In this role you will:

- Drive a customer focused culture throughout their team to deepen client relationships and leverage broader Bank relationships, systems and knowledge
- Recommend end-to-end technology design solutions and takes full accountability for the architecture of a solution
- Work in wide range of technology strategy initiatives such as Applications rationalization, Cloud Migration, Legacy modernization. Synthesize findings and present clear recommendations and roadmaps ensure impactful project outcomes to various teams within GBM
- Ensure simplification of the technology application landscape there by achieving efficiency gains in terms cost, revenue and resources while ensuring uncompromised delivery of business value to clients.
- Keep the Bank safe by ensuring right technology, architecture, data, and infrastructure choices are made that prevents malicious attacks against the Bank's technology infrastructure.
- Understand how the Bank's risk appetite and risk culture should be considered in day-to-day activities and decisions.
- Create an environment in which his/her team pursues effective and efficient operations of his/her respective areas in accordance with Scotiabank's Values, its Code of Conduct and the Global Sales Principles, while ensuring the adequacy, adherence to and effectiveness of day-to-day business controls to meet obligations with respect to operational, compliance, AML/ATF/sanctions and conduct risk.

Do you have the skills that will enable you to succeed in this role We'd love to work with you if you have:

- 8+ years of software engineering industry experience
- Bachelor (equivalent or higher) degree in Computer Science, Engineering or related discipline.
- 3+ Experience working in the Capital Markets domain
- Experience with structured Architecture practices, hybrid cloud deployments, and on-premise to-cloud migration deployments and roadmaps.
- Experience building, architecting, designing, and implementing highly distributed global based systems. Experience in network infrastructure, security, data, or application development.

- Experience in modernizing legacy systems or similar transformational initiatives

What's in it for you
