

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Requisition ID: 195295

Join a purpose driven winning team, committed to results, in an inclusive and high-performing culture. Is this role right for you? In this role, you will:

- Support analytics teams with the data that will allow them to create and deliver products to optimize revenue growth
 - Improve customer experiences using predictive modeling and machine learning.
 - Manage maintenance of the Data Office's data governance standards and data management playbooks and its alignment to related policies and standards
 - Provide consultative guidance.
 - Develop and support tools and procedures to measure alignment to standards and data management maturity.
 - Enable the Bank's adoption of the Data Governance Framework and work with 2nd line and Audit to meet regulatory obligations.
 - Work to design and develop technical solutions for enterprise data pipelines and services.
 - Champion change in the bank by promoting data literacy, data analytics, and data informed decision making.
- Do you have the skills that will enable you to succeed in this role? We'd love to work with you if you have experience with:

- You have 2+ years of experience in some of these areas, such as data management, data governance, data architecture or data engineering.
- You have a university degree in business or in a relevant STEM discipline or equivalent experience.
- Strong project management and communication skills (both oral and written).
- Proven data literacy and excellent storytelling; The ability to simplify and describe complex data concepts to stakeholders outside of data.
- Ability to manage process and planning, facilitate teamwork, and coordinate execution of multiple deliverables.
- You have experience with Big Data ecosystem tools (e.g., Hive, Pig, Sqoop, Spark, Google Cloud Platform).
- You have experience using visualization tools like Power BI, Tableau or QlikView.

What's in it for you

- The opportunity to join a forward-thinking and collaborative team, surrounded by innovative thinkers.
- A rewarding career path with diverse opportunities for professional development
- Internal training to support your growth and enhance your skills.
- An inclusive working environment that encourages creativity, curiosity, and celebrates success!
- Work in an Ecosystem where you'll have access to group seating, offices, collaboration spaces, a cafeteria with different options daily, and more.
- Hybrid Work Environment
- Indigenous Specific Benefits
- \$10,000 CAD annually dedicated to mental health benefits
- Traditional Indigenous Practices Leave
- Indigenous Employee Mentoring Program
