

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Job</b>	Type: Full-time	Category: Finance

### Description

Requisition ID: 199162

Join a purpose driven winning team, committed to results, in an inclusive and high-performing culture. Contributes to the overall success of the Physical Threat Intelligence Unit, Corporate Security and Legal & Corporate Affairs in Globally ensuring specific individual goals, plans, initiatives are executed / delivered in support of the team's business strategies and objectives. Ensures all activities conducted are in compliance with governing regulations, internal policies and procedures globally. Is this role right for you In this role you will:

- Contribute to the development of best practices, standard operating procedures, and guidelines for the practice of geospatial intelligence analysis across Corporate Security globally.
- Conduct and contribute to the analysis of physical and financial threat and risk, stemming from vectors including but not limited to crime, terrorism, conflict, and climate, to Scotiabank assets, operations, and employees across the globe.
- Prepare clear and concise geospatial intelligence reports, briefs, and assessments pertaining to physical and financial threat and risk. Effectively communicate geospatial insights via written and oral briefings to both technical and non-technical audiences, translating complex information into actionable recommendations for key stakeholders within Corporate Security and across the Bank.
- Provide subject matter expertise and support to cross-functional teams within Corporate Security, acting as a trusted resource for analysis, interpretation, and assessment of geospatial data.
- Collaborate with partners across the Scotiabank enterprise to facilitate information sharing and joint analytical efforts.
- Oversee the acquisition, integration, and maintenance of geospatial data sets to drive accuracy, completeness, relevance, and collaboration across the Bank.
- Implement data governance and quality control measures for geospatial data.
- Stay informed on emerging geospatial technologies and tools; evaluate their suitability for Scotiabank's needs and requirements.
- Lead the implementation of new geospatial technologies to enhance physical and financial risk assessment capabilities. Identify opportunities for innovation, efficiency, and effectiveness of geospatial workflows for physical and financial threat and risk management.

Do you have the skills that will enable you to succeed in this role We'd love to work with you if you have:

- Undergraduate degree in Geography, Geospatial Science, GIS, Criminal Intelligence, or related/equivalent experience required.
- Graduate degree in Geography, Geospatial Science, GIS, Criminology, Intelligence Analysis, or related/equivalent experience preferred.
- 3 - 5 years of experience in Geospatial Intelligence Analysis, Criminal Intelligence Analysis, Law Enforcement, Financial Services, Information Technology, or Data Analysis is required.
- Experience with Geographic Information Systems (e.g., ArcGIS Pro, ArcGIS Online) is required.
- Experience working in a fast-paced environment with tight deadlines, and the ability to prioritize and manage multiple tasks simultaneously.
- Proficiency in Microsoft Office Suite (Office, PowerPoint, Excel, etc.).
- Excellent oral and written communication skills.

Some more information you might want to know:

- Must respond to a level and pace of activity, as determined by external events over which they have little control and be able to quickly set priorities to determine the order in which situations need to be handled.
- Is expected to operate with minimum direction and function autonomously in day-to-day issues.
- Responsible for the initial response to, and analysis of, geospatial intelligence issues up to and including those which pose a potential risk to the Bank.
- At times will be the sole intelligence representative responsible for production of short turnaround reporting and assessments on threats to the Bank.
