

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Requisition ID: 200827

Join a purpose driven winning team, committed to results, in an inclusive and high-performing culture. You will contribute to the overall success of the global Cyber Threat Intelligence function ensuring specific individual goals, plans, initiatives are executed / delivered in support of the team's business strategies and objectives. Ensures all activities conducted are in compliance with governing regulations, internal policies and procedures. Is this role right for you

- Champions a customer focused culture to deepen client relationships and leverage broader Bank relationships, systems and knowledge.
  - Able to conduct research and analysis of emerging cyber security threats and assess the potential impact to the Bank.
  - Strive in creating quality technical papers documenting security threats, risks, and mitigation techniques
  - Proficient in communicating situational awareness and technical intelligence to internal and external stakeholders and trusted partners
  - Understand how the Bank's risk appetite and risk culture should be considered in day-to-day activities and decisions.
  - Actively pursues effective and efficient operations of his/her respective areas in accordance with Scotiabank's Values, its Code of Conduct and the Global Sales Principles, while ensuring the adequacy, adherence to and effectiveness of day-to-day business controls to meet obligations with respect to operational, compliance, AML/ATF/sanctions and conduct risk.
  - Champions a high performance environment and contributes to an inclusive work environment.
- Do you have the skills that will enable you to succeed in this role
- Possesses advanced communication (verbal/written/presentation) skills in English and Spanish.
  - Have at least 2 years of hands-on technical working experience in any of the following: network security, information security and/or network support.
  - Have developed capabilities in prioritizing and completing assigned tasks in a timely manner
  - Working knowledge of various network principles, cyber security concepts, investigation procedures, and adversary techniques.
  - Strong analytical and problem resolution skills.
  - Familiar in evaluating and sharing Indicators of Compromise (IoCs), Tactics, Techniques, and Procedures (TTPs) via reports, formal briefs, and threat indicator sharing platforms.
  - Familiar in reviewing and recommending countermeasures across various security controls (IDS, IPS, SIEM, Web Content Filtering, etc.) to identify and detect known threats.
  - Excellent communication and presentation skills with the ability to present to senior-level executives as well as technical staff.

- Broad knowledge of common cyber adversaries, attack vectors, intrusion tactics, and attacker tools.
- Experience in analyzing and interpreting data from multiple sources, documenting the results, and providing meaningful analysis reports and briefings.
- Post-secondary education in Computer Science or in a related field.
- Security certifications (e.g., GSEC, CompTIA Security+, CCNA, CompTIA Networking+, ITIL CEH, and OSCP) would

be an asset(s).

What's in it for you

- Diversity, Equity, Inclusion & Allyship - We strive to create an inclusive culture where every employee is empowered to reach their fullest potential, respected for who they are, and are embraced through bias-free practices and inclusive values across Scotiabank.
