

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Requisition ID: 200908

Join a purpose driven winning team, committed to results, in an inclusive and high-performing culture. Contributes to the overall success of the IT Risk Function / Global Payments and Core Banking Engineering (PCBE) ensuring specific individual goals, plans, initiatives are executed / delivered in support of the team's business strategies and objectives. Ensures all activities conducted are in compliance with governing regulations, internal policies and procedures. Is this role right for you? Champions a customer focused culture to deepen client relationships and leverage broader Bank relationships, systems, and knowledge. Collaborate with all technology teams to plan and execute risk assessments, ensure that appropriate governance processes are in place, and that IT Risk is proactively managed and remediated. Analyze IT processes in order to design and implement robust risk related controls and processes, ensure that controls are maintained and monitored. Actively monitor and investigate PCBE's Key IT Risk Indicators (Security, Availability, Third Party Management, Software Currency, etc.), and work across the organization to resolve vulnerabilities. Interface with other areas in Scotiabank, such as: IT Security, Vulnerability Management, Global Risk Management, Audit, Compliance, and Portfolio Management. Ensure that IT Risk assessment analysis and results are maintained in enterprise tools and are in full compliance of defined policies and common standards. Track, monitor and work with issue owners to ensure that open issues are reviewed and resolved in a timely manner. Work with Scotiabank's Audit and Compliance and IT application owner teams to resolve any issues identified. Understand how the Bank's risk appetite and risk culture should be considered in day-to-day activities and decisions. Actively pursues effective and efficient operations of his/her respective areas in accordance with Scotiabank's Values and Code of Conduct, while ensuring the adequacy, adherence to and effectiveness of day-to-day business controls to meet obligations with respect to operational, compliance, and conduct risk. Champions a high-performance environment and contributes to an inclusive work environment. This position also requires strong people management skills and the ability to motivate and influence junior staff and SMEs in PCBE and other Technology departments.

Do you have the skills that will enable you to succeed in this role

- 5 to 10 years experience in IT Risk Management or IT Audit in Banking
- Professional designations such as CISSP, CISM, CISA, CRISC would be a plus. Experience within a global banking environment, and knowledge of banking business processes. Experience with IT audits or regulatory compliance. Expert analysis, problem solving, and documentation skills. Good understand of multiple domains (Security Management, Identify and Access Management, Vulnerability Management, Disaster Backup Recovery, Software Currency). Ability to understand and work with complex environments, data, and systems. Excellent communication, facilitation, and collaboration skills. Proven ability to gather evidence and interview stakeholders and business partners; practical experience in conducting in-depth analysis. Detailed-oriented with proven ability to analyze and document complex systems.
