

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Company</b>	Rogers	
<b>Location</b>	Montreal, QC	
<b>Date Posted</b>	From: 2024-05-01	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Telecommunications

### Description

Our Technology team wakes up every day with one goal in mind - connecting Canadians to the people and things that matter most. Together, we are proud to support 30 million Canadians each month through managing a robust portfolio that champions leading-edge technology. We drive large-scale, complex, and high-visibility technology projects and programs that shape the future of technology in Canada and expand connectivity from coast to coast. If you are interested in being a part of this, consider applying for the following opportunity:

The Technology Strategy Organization conducts analysis as inputs to support leadership decision making. We provide insights and analysis on new technologies, evolution of our existing networks and ultimately, recommendations on how we spend our capital most efficiently and effectively and set up the business for future success. We also manage Network Partnerships including new initiatives and coordinating and project managing partnership projects.

**What You Will Be Doing:**

- You will work in a fast-paced environment on a small, agile team where you will collaborate with teams across the Technology organization and the company to understand new technologies, customer requirements and government regulation.
- You will also project manage partnerships and activities associated with those partnerships working with the Partner and internal Technology and Marketing teams.
- You will organize and manage governance meetings, provide direction to the organization on any questions related to the how and what the partnerships require of us.
- You will provide analysis of markets, technology, regulatory, and customer trends to executive leadership and manage strategic and tactical relationships with vendors and other industry partners.
- You will be responsible for monitoring peers and competitors in the industry to understand their technology and geographical investments.

**Who You Are:**

- You are an excellent communicator who can articulate complex concepts in an engaging, persuasive, and digestible manner and have an active interest and presence in the telecommunications and technology industries.
- You can lead and balance multiple projects at once with changing priorities and see it through to completion.
- You can manage cross functionally to project manage projects and drive their completion.
- You are an analytical thinker focused on qualitative and quantitative data to project future vision for the organization.

**What You Bring:**

- 5-7 years in a leadership role in the telecommunications industry and operations
- Proven analytical, financial modeling and problem-solving skills
- Experience in Cross Function Project Management and driving projects to completion
- Strong communications (written & oral) and interpersonal skills
- Excellent presentation skills with experience delivering presentations to executive leadership
- Strong time management capabilities, with the ability to perform multiple tasks and objectives concurrently
- Advanced experience working within a financial budget and developing relationships with internal finance partners
- Experience working on projects with a 0-3 year time horizon
- Results oriented, flexible and willing to work in a multi-task and dynamic work environment
- Comfortable navigating in an environment of ambiguity
- Undergraduate degree in Applied Science (Electrical Engineering, Computer science preferred)

At Rogers, we believe the key to a strong business, is a diverse workforce where equity and inclusion are core to making everyone feel like they belong. We do this by embracing our diversity, celebrating our different perspectives, and working towards creating environments that empower our people to bring their whole selves to work. Everyone who applies for a job will be considered. We recognize the business value in creating a workplace where each team member has the tools to reach their full potential by removing any barriers for equal participation. We work with our candidates who are experiencing a disability throughout the recruitment process to ensure that they have what they need to be at their best. Please reach out to our recruiters and hiring managers to begin a conversation about how we can ensure that you deliver your best work. You matter to us! For any questions, please visit the [https://performancemanager4.successfactors.com/doc/custom/RCI/Recruitment\\_Process-FAQ-EN.pdf](https://performancemanager4.successfactors.com/doc/custom/RCI/Recruitment_Process-FAQ-EN.pdf) Recruitment Process FAQ.

Successful candidates will be required to complete a background check as part of the hiring process.
