

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Position Description:

Security clearance: Must be able to meet the requirements for obtaining a secret level clearance.

Your future duties and responsibilities:

- Proven track record of designing and implementing complex user interfaces for SPAs.
- In-depth knowledge of design principles like user research, information architecture, interaction design, and visual design.
- Expertise in ReactJS and understanding of web development concepts.
- Mastery of Figma for design prototyping and collaboration.
- Excellent communication and collaboration skills to work effectively with cross-functional teams.
- Strong analytical and problem-solving skills with a focus on user-centered design.
- A keen eye for detail and a passion for creating aesthetically pleasing and functional user interfaces.

Portfolio showcasing your design process and successful projects, particularly those using ReactJS and Figma.

Required qualifications to be successful in this role:

- 5+ years of experience as a UI/UX Designer with a strong focus on user experience (UX).

Experience with other design tools (e.g., Sketch, Adobe XD).

- Experience with accessibility guidelines (WCAG).
- Understanding of front-end development frameworks (e.g., Bootstrap, Material-UI).

Skills:

- English
- Figma
- User Interface Design
- UX design
- French

What you can expect from us:

Together, as owners, let's turn meaningful insights into action.

Life at CGI is rooted in ownership, teamwork, respect and belonging. Here, you'll reach your full potential because...

You are invited to be an owner from day 1 as we work together to bring our Dream to life. That's why we call ourselves CGI Partners rather than employees. We benefit from our collective success and actively shape our company's strategy and direction.

Your work creates value. You'll develop innovative solutions and build relationships with teammates and clients while accessing global capabilities to scale your ideas, embrace new opportunities, and benefit from expansive industry and technology expertise.

You'll shape your career by joining a company built to grow and last. You'll be supported by leaders who care about your health and well-being and provide you with opportunities to deepen your skills and broaden your horizons.

Come join our team-one of the largest IT and business consulting services firms in the world.
