

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Senior AX Functional Analyst

Job ID	3534-7877	
Web Address	https://careers.indigenous.link/viewjob?jobname=3534-7877	
Company	CEDA	
Location	Calgary, Alberta	
Date Posted	From: 2020-01-15	To: 2050-01-01
Job	Type: Full-time	Category: Engineering

Description

Understand the way the business operates to truly understand how we can better leverage Microsoft AX for practical and sustainable solutions. You're great at understanding the requirements, assessing the gaps, and can back the design and configuration into something that will be added value to all users! Key Duties & Responsibilities

- Partner on multiple projects - liaise with business and business analyst to find the 'want' and translate into AX solutions.
- Be the technical expert in the room to help achieve common goals
- Internal customer relationships are paramount to success - your demonstrated ability to collaborate will propel you to project success
- Determine what works - develop and test detailed functional designs for business solution components and prototypes. This includes developing the test scripts for other users
- Prepare and present internally for a variety of audiences - modify technical language to various user levels

Role Specifications

- 8-10 years' experience with full life-cycle implementation of Dynamics AX (up to version AX7 and/or AX 2012 R3)
- You have participated in at least three and been the lead on at least one AX 2012 full life cycle implementation
- Within the 8-10 years you've worked with the Financial, Project, and Supply Chain Management modules
- Experience in ERP implementation principles, practices and methodologies
- Project management, change control, change management - understanding that in AX there is a chain and includes multiple facets to make it work

Personal Characteristics

- Solutions focused in everything you do
- A troubleshooter - you don't rely on the script. Out of the box thinking helps you logically and systematically analyze situations, resolve problems, identify causes and anticipate implications
- Project work, team work and interdepartmental collaboration gives you energy

The above statements are intended to describe the general nature and level of work being performed. They are not intended to be an exhausted list of all responsibilities, duties and skills required.
