

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About Toronto Metropolitan

At the intersection of mind and action, Toronto Metropolitan University (TMU) is on a transformative path to become Canada's leading comprehensive innovation university. Integral to this path is the placement of equity, diversity and inclusion as fundamental to our institutional culture. Our current academic plan outlines each as core values and we work to embed them in all that we do. TMU welcomes those who have demonstrated a commitment to upholding the values of equity, diversity, and inclusion and will assist us in realizing the benefits of embedding these values into the work at every level and in every unit of the university. In addition, to correct the conditions of disadvantage in employment in Canada and to bring lived experiences to the work, we encourage applications from members of equity deserving groups that have been historically disadvantaged and marginalized, including First Nations, Metis and Inuit Peoples in Canada, First Nations Peoples in the United States, racialized people, Black people, persons with disabilities, women, and 2SLGBTQ+ people. Preference will be given to candidates with lived experiences as people from equity deserving groups, as well as experience working with these communities with which the University works every day. Please note that all qualified candidates are encouraged to apply and we welcome newcomers and immigrants to Canada. In April 2022, the university announced its new name of Toronto Metropolitan University. Learn more about our next chapter. About The Chang School: The G. Raymond Chang School of Continuing Education is Canada's leading provider of university-based adult education, offering access to professionally relevant courses and programs. Since 1975, The Chang School has empowered learners with cutting-edge workplace knowledge to achieve their personal and professional goals. With approximately 70,000 annual enrollments across 1,500 courses, seminars, and workshops in various disciplines, the school also offers 86 career-related certificate programs, including 39 that can be completed entirely online. The programming is flexible and accessible, available on campus, online, and off-site for employee groups. About Digital Education Strategies (DES): Digital Education Strategies (DES) is the centralized unit for online program development and delivery at The Chang School. Since 1999, DES has been a leader in online education in Canada, developing over 40 new online courses annually and supporting more than 450 online and hybrid courses. With over 33,000 annual online enrollments, the team-comprising learning experience designers, multimedia developers, and eLearning production editors-collaborates with global faculty and subject-matter experts to create engaging, learner-centered digital experiences.

The Opportunity
