

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About The Role

Join our Software Engineering Team and launch an exciting, fast-paced career in IT transformation.

From new product development to technology modernization, quality engineering and application support, our agile ways of working help clients co-deliver critical architecture and software solutions across all stages of the application lifecycle.

Discover the diverse and exciting roles on client assignments. Build capabilities in diverse programming languages, applying best practices as we partner with leading technology vendors like Microsoft and AWS to accelerate our client's software transformation projects.

About this role

We welcome all candidates from all degree backgrounds, no STEM experience required. Show us your passion for tech and we'll show you the skills for success on your career journey.

You'll join FDM as a Consultant within our Software Engineering Practice, where you'll start your journey developing key skills in a practice-based learning environment for 6 weeks. You will then be able to start delivering projects for our clients across a wide of industries. Client assignments could see you take on the role of Software Engineer, Quality Engineer, Cloud Developer and more. You'll have the chance to develop your career, whether linear or non-linear, as our Skills Lab offers numerous upskilling opportunities to enhance your abilities or explore new areas.

Where ambition meets opportunity

At FDM we find driven people from diverse backgrounds. Dedicated to your continuous growth, we offer a non-linear career journey with our Skills Lab helping guide you to the future you want.

Your skill sets will grow. Clients will value your increased expertise. And your career will thrive exponentially.

Experience

About You

What we look for

Bachelor's degree or diploma

Excellent communication and problem-solving skills

A strong aptitude for technology and the interest and drive to expand your technical skill set

Foundational coding knowledge in Java/C+/C#/Python or JavaScript

Able to commit to work for FDM for a minimum of two years as a Consultant following the initial training period

Eligible to work in Canada

Please note all client assignments require hybrid working in client offices in, but not limited to, Toronto, Montreal, Halifax, Vancouver and Calgary.

Why join us

Coaching, continuous support and access to upskilling throughout your entire FDM career

Assignments with global companies and opportunities to work on exciting projects

Opportunity to re-skill and up-skill into new areas, develop non-linear career paths and build a skill set within your field.

Relocation support (if necessary)

Comprehensive and competitive benefits package

Other

About Us

About FDM

FDM is an award-winning global business and technology consultancy powering the people behind tech and innovation for over 30 years. We collaborate with world-leading companies to identify the expertise they need, exactly when they need it. We have helped successfully launch nearly 25,000 careers globally to date and are a trusted partner to over 200 companies worldwide.

FDM has 5,000+ employees worldwide, with over 90 nationalities working together as a team. From our origins in Brighton, UK, FDM now has 18 centres located across North America, Europe and Asia-Pacific and is now on the FTSE4Good Index.

Dedicated to Diversity, Equity and Inclusion

FDM Group's mission is to make tech and business careers accessible for everyone. Our diverse team of 90+ nationalities thrive on differences, fuels innovation through varied experiences, and celebrates shared successes. As an Equal Opportunity Employer and listed on the FTSE4Good Index, FDM ensures every qualified applicant, regardless of race, colour, religion, sex, sexual orientation, national origin, age, disability or any other status protected by federal or provincial law, gets the chance they deserve.

Please note that FDM utilizes artificial intelligence to assist in evaluating candidates for its Career Development Program.
