

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Our growing Edmonton office is looking to add a highly capable Civil Engineering Technologist to our team to deliver excellent service to our Municipal and Indigenous clients across Central and Northern Alberta.

As a Civil Engineering Technologist, you will be responsible for working alongside our team of engineering, planning, and drafting specialists to translate high-level conceptual designs from preliminary through to detailed design. Coupled with the diverse learning and project experience opportunities, do you see yourself excited to contribute to...

- Supporting engineering personnel in the field with design, drawing production, and/or construction specifications.
- Ensuring quality control of your work and effectively communicating with project leaders.
- Performing a variety of defined assignments with independent judgment.
- Supporting field design, field surveying, and drafting.
- Assisting with project timelines and ensuring deadlines are met.

Experience

Our preferred candidate is a recent graduate from an Engineering Design & Drafting Technology or Civil Engineering Technology program with up to five years of experience and possesses the following skills, strengths, and interests:

- You are proficient in Civil 3D and are excited to learn new software.
- You are proficient with Microsoft Excel and other MS Office software.
- You have a keen eye for detail and take great pride in your work, in projects both large and small.
- You have strong written and oral communication skills for communicating with team members and clients.
- You are committed to ongoing personal and professional development.
- You are certified or eligible for certification with ASET or an equivalent Provincial association.
- You have a valid class 5 driver's license or equivalent.

How to Apply
