

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Position Description:

The Department of Plant Agriculture at the University of Guelph invites applications for a tenure-track position at the Assistant Professor level for the Professorship in Dry Bean Agronomy and Pest Management. This position is located at the University of Guelph's Ridgetown Campus, located in the municipality of Chatham-Kent, 200 km southwest of the University's main campus in Guelph.

Position Requirements:

- * A Ph.D. in Agronomy or closely related field
- * Demonstrated capacity for teaching excellence at the diploma level and graduate student training
- * Strong practical farm-level knowledge of pest management and agronomy practices in field crops
- * Capacity to establish and lead an independent, externally-funded research program
- * Ability to collaborate and engage with industry and growers to develop practical solutions
- * Ability to incorporate relevant, practical on-farm experience into teaching methods

The holder of the Professorship in Dry Bean Agronomy and Pest Management will directly contribute to industry and address societal issues such as the impact of climate change and food security. They will possess the ability to work in partnership with researchers from the UofG, nationally and internationally, to advance dry bean agronomy and pest management. Effective communication skills, including the ability to develop presentations for diverse audiences (e.g., diploma students, graduate students, industry stakeholders, producers) and to excel at knowledge transfer and extension is vital to the role. They will join a world-class team of faculty members in the Department of Plant Agriculture conducting research in sustainable cropping practices. Other faculty include weed scientists, as well as others working in the areas of plant breeding and genetics, entomology, pathology, crop physiology, post-harvest physiology, agronomy, and plant-based bioproducts.

Salary is negotiable and commensurate with qualifications. The Department will provide competitive research start-up funds.

Work Environment

About the Department, Ridgetown Campus and the University

The University of Guelph's Ridgetown Campus has been a leader in applied agricultural research for 100 years. The campus is located in the municipality of Chatham-Kent, one of Canada's most important agricultural regions, producing over 70 different types of crops. Campus faculty are globally recognized as leaders in their fields, partnering closely with producers to solve real-world problems. They share their expertise with students inside the classroom and on our 180-hectare campus and research plots which offer exceptional hands-on learning opportunities.

The Department of Plant Agriculture is Canada's largest and most diverse applied plant biology department and has recognized strengths in a broad cross-section of plant sciences including agronomy, horticulture, breeding, molecular genetics, genomics, controlled environment systems, plant physiology, post-harvest physiology, plant pathology, and plant-based bioproducts. The Department currently has 30 faculty members and employs 100 staff and more than 100 graduate students. Faculty within the Department have access to modern laboratory, growth room and greenhouse facilities, as well as fourteen well-equipped research stations across the province. As part of the Ontario Agricultural College, Plant Agriculture has a long history of achievement in serving the agriculture and agri-food industries within Ontario and beyond.

Other

The University of Guelph is a top-ranked comprehensive university in Canada with an enrolment of more than 30,000 undergraduate and graduate students across over 40 academic units. The University is known for its commitment to student learning, innovative research, and collaboration with world-class partners. It is a unique place, with transformative research and teaching and a distinctive campus culture. People who learn and work here are shaped and inspired by a shared purpose: To Improve Life. Reflecting that shared purpose in every experience connected to our university positions us to create positive change, here and around the world. Our community shares a profound sense of social responsibility, a drive for international development, and an obligation to address global issues.

The University of Guelph resides on the ancestral lands of the Attawandaron people and the treaty lands and territory of the Mississaugas of the Credit and we offer our respect to our Anishinaabe, Haudenosaunee and Metis neighbours as we strive to strengthen our relationships with them.

We acknowledge the traditional territory under Treaty 2 of the Ojibwa, Odawa, and Potawatomi on which the University of Guelph, Ridgetown Campus resides. These three Nations make up the traditional Three Fires Confederacy. We recognize and respect the contributions of our Anishinaabe and Leni-Lunape ancestors, as stewards both in shaping and strengthening this community, our province, and our country.
