

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

We are looking for a Configuration and Document Management Specialist (CDM) to support our Herzberg Astronomy and Astrophysics Research Centre. The CDM would be someone who shares our core values of Integrity, Excellence, Respect and Creativity.

The Astronomy Technology Directorate (ATD) at NRC's HAA Research Centre is engaged in the development of leading-edge instrumentation for some of the world's largest observatories. The ATD currently requires a CDM with the focus and primary responsibility for configuration and document management for the Atacama Large Millimeter/submillimeter Array (ALMA) correlator project and with a secondary responsibility of providing project management coordination.

Configuration management includes establishing and maintaining a configuration registry, coordination and involvement in the Engineering Change Proposal (ECP) process to ensure effective work/process flow, and adhering to ALMA requirements as well as best practices. All activities are detail-oriented and attention to detail is of paramount importance.

Document management includes establishing and maintaining a document repository and registry, maintaining document templates, assigning and tracking document numbers and revisions according to ALMA requirements, and advising engineers and project management in document development and approval. All activities are detail-oriented and attention to detail is of paramount importance.

Project management coordination includes coordinating primary project management activities with systems, project, and design engineering as well as day-to-day refreshing of living project management documents including various management plans, schedule, and budget as needed and as directed by the Principal Investigator and Project Manager.

Nous recherchons un spÃ©cialiste de la gestion des configurations et des documents (GCD) pour soutenir notre centre de recherche en astronomie et astrophysique de Herzberg. Le GCD sera une personne qui partage nos valeurs fondamentales d'intÃ©gritÃ©, d'excellence, de respect et de crÃ©ativitÃ©.

La Direction de la technologie astronomique (DTA) du Centre de recherche en astronomie et astrophysique du CNRC est engagÃ©e dans le dÃ©veloppement d'instruments de pointe pour certains des plus grands observatoires du monde. La DTA est actuellement Ã la recherche d'un CDM dont la principale responsabilitÃ© est la gestion de la configuration et des documents pour le projet de corrÃ©lateur du grand rÃ©seau millimÃ©trique/submillimÃ©trique d'Atacama (ALMA) et dont la responsabilitÃ© secondaire est d'assurer la coordination de la gestion du projet.

La gestion de la configuration comprend l'Ã©tablissement et la tenue d'un registre de configuration, la coordination et l'implication dans le processus de Proposition de Modification Technique (PMT) afin d'assurer un flux de travail/processus efficace, et l'adhÃ©sion aux exigences de l'ALMA ainsi qu'aux meilleures pratiques. Toutes les activitÃ©s sont axÃ©es sur les dÃ©tails et l'attention portÃ©e aux dÃ©tails est d'une importance capitale.

La gestion des documents comprend l'Ã©tablissement et la maintenance d'un rÃ©gistre et d'un registre de documents, la maintenance des modÃ©les de documents, l'attribution et le suivi des numÃ©ros de documents et des

rÃ©visions conformÃ©ment aux exigences de l'ALMA, et la fourniture de conseils aux ingÃ©nieurs et Ã la direction du projet en matiÃ¨re d'Ã©laboration et d'approbation des documents. Toutes les activitÃ©s sont axÃ©es sur les dÃ©tails et le souci du dÃ©tail est d'une importance capitale.

La coordination de la gestion du projet comprend la coordination des activitÃ©s principales de gestion du projet avec l'ingÃ©nierie des systÃmes, du projet et de la conception, ainsi que l'actualisation quotidienne des documents de gestion du projet, y compris les divers plans de gestion, le calendrier et le budget, selon les besoins et les instructions du chercheur principal et du chef de projet.
