

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Company	United Rentals	
Location	Laval, Quebec	
Date Posted	From: 2024-03-26	To: 2050-01-01
Job	Type:	Category: Transportation

Description

Great company. Great people. Great opportunities. En tant qu'ingénieur principal chez United Rentals, vous serez responsable du support technique de plusieurs centres de profit au sein de la division Trench Safety. Vous vous efforcerez de répondre aux besoins d'ingénierie en matière de sécurité des tranchées des entrepreneurs, des entreprises industrielles et commerciales et, ce faisant, de générer des revenus d'ingénierie rentables pour la division et l'entreprise.

Si vous souhaitez avoir la chance de faire votre marque auprès du plus grand fournisseur de location d'équipement au monde, envisagez un avenir avec United Rentals. Nous vous fournirons les outils, la technologie et le soutien dont vous avez besoin pour bien faire votre travail. Vous serez également soutenu par une solide équipe de direction qui vous aidera à atteindre vos objectifs. Les tâches supplémentaires comprennent les suivantes :

- Évaluer les conditions du site et concevoir des systèmes d'étalement surs, efficaces et structurellement solides qui favorisent l'efficacité et la praticité du chantier sur le terrain.
- Fournir des plans spécifiques au site scellés/estampillés PEng, y compris les dessins de conception d'étalement des tranchées/excavations et les calculs à l'appui
- S'assurer que les dessins et les plans techniques sont exacts et répondent aux normes de conception technique applicables et aux exigences du CCHST.
- Former si nécessaire et fournir un soutien technique aux représentants commerciaux de Trench Safety pour fournir des devis aux clients.
- Estimer les coûts du projet et préparer les propositions pour les clients
- Obtenir et/ou maintenir des licences professionnelles dans plusieurs provinces
- Autres tâches assignées selon les besoins

Exigences de l'emploi:

- Bilingue (Français/Anglais)
- Titre d'ingénieur professionnel (PEng); B. S. en génie mécanique, structurel ou civil, ou dans un domaine d'ingénierie connexe
- Familiarité avec AISC ASD ou LRFD
- Familiarité avec l'analyse de base de l'ingénierie structurelle et les normes de conception
- Familiarité avec les propriétés de base du sol, les procédures d'essai et l'interprétation des données géotechniques
- 5 à 10 ans d'expérience en tant qu'ingénieur agréé dans un environnement d'ingénierie structurelle ou géotechnique
- Maîtrise de la norme d'excavation du CCHST
- Expérience avec Autocad, Mathcad, Microsoft Word et Microsoft Excel.
- Doit être capable de travailler efficacement de manière indépendante, ainsi qu'au sein d'un environnement d'équipe
- Doit être capable de travailler efficacement avec les clients et les représentants commerciaux pour planifier et négocier conceptuellement la conception de systèmes d'étalement.
- Solides compétences organisationnelles et souci du détail

Ce poste est considéré comme sensible à la sécurité aux fins des politiques et procédures de United Rentals. As a Sr. Engineer at United Rentals, you will be responsible for the engineering support of multiple profit centers within the Trench Safety Division. You will be dedicated to meeting Trench Safety engineering needs of contractors, industrial and commercial companies, and in doing so, drive profitable engineering revenue for the Division and Company. If you would

enjoy the chance to make your mark with the world's largest equipment rental provider, consider a future with United Rentals. We'll provide the tools, the technology and the support you need to do the job right. You will also be supported by a strong management team that will help you achieve your goals. Additional duties include the following:

- Evaluate site conditions and design safe, effective, and structurally-sound shoring systems that promote jobsite efficiency and practicality in the field
- Provide PEng sealed/stamped site specific plans including trench/excavation shoring design drawings and supporting calculations
- Ensure engineering drawings and plans are accurate and meet applicable engineering design standards and CCOHS requirements
- Educate as necessary and provide engineering support to Trench Safety sales representatives in providing quotes to customers
- Estimate project costs and prepare proposals for customers
- Obtain and/or maintain professional licenses in multiple provinces
- Other duties assigned as needed

Job Requirements:

- Bilingual (French/English)
- Professional Engineering (PEng) designation; B. S. in mechanical, structural or civil engineering, or related engineering field
- Familiarity with AISC ASD or LRFD
- Familiarity with basic structural engineering analysis and design standards
- Familiarity with basic soil properties, testing procedures, and interpretation of geotechnical data
- 5-10 years experience as a licensed engineer in a structural or geotechnical engineering environment
- Proficient in the CCOHS Excavation Standard
- Experience with Autocad, Mathcad, Microsoft Word and Microsoft Excel.
- Must be able to effectively work independently, as well as within a team environment
- Must be able to effectively work with customers and sales representatives to conceptually plan and negotiate shoring system designs
- Strong organizational skills and fine attention to detail

This position is deemed Safety Sensitive for purposes of United Rentals' policies and procedures. Why join us? We don't just "talk the talk!"
