

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Job</b>	Type: Full-time	Category: Resource Sector

### Description

Manager, Integrated Planning Reference Code: 80761 Location: Canada (CA) - Calgary, AB

Job Category: Management

Employment Type: Employee Full-time

Relocation Eligibility: This position is not eligible for our relocation program

Application Deadline: 04/22/2021 We all need energy. It warms our homes, cooks our food, gives us light, and gets us where we need to go. It also improves our quality of life in countless other ways. At TC Energy, our job is to deliver that energy to millions of people who depend on it across North America. And we take our job very seriously. Guided by our values of safety, integrity, responsibility and collaboration, we develop and operate our facilities safely, reliably and with care for our impact on the environment. With our presence across the continent, our people play an active role in building strong communities. We're proud of how our hard work and commitment sets us apart and benefits society, every day. We're looking for new team members who share our values and are ready to take on exciting challenges. The opportunity

Reporting to the Director, Portfolio Management, the successful candidate will lead a group of engineering and business professionals that are dedicated to the consolidation, prioritization, optimization and planning of work on TCE's Canadian Natural Gas Assets. The optimization and planning of the work is done to meet safety, regulatory, integrity, reliability, performance, and financial objectives both in the near and long term. We are seeking an individual that is a strong strategic and systems thinker that is also a capable of managing multiple stakeholder expectations in a very dynamic environment. Key interfaces for this role will be with Canada Gas Engineering, Operations, Projects, and several key corporate functions. This is a key role in in helping Canada Gas Operations, Engineering, and Projects deliver its vision of simply being the best. What you'll do

- Accountable for integrated planning of the work that touches TCE Canadian Natural Gas assets (NGTL, Foothills, Mainline, TQM)
- Plan and optimize the work to ensure both short- and long-term business objectives are met (i.e., safety, regulatory, integrity, reliability, performance, financial).
- Facilitation and consolidation of all facility and pipeline outage requirements through a structured process, work collaboratively with Operations Planning to determine optimal outage plans that balance pipeline system availability requirements with maintenance and project work priority, timing and duration.
- Work closely with both engineering and execution teams to ensure all work in the portfolio is planned and optimized.
- Drive the improvement of integrated planning processes to improve efficiency and effectiveness of work and outage planning
- Identification and mitigation of portfolio risks
- Improve the transparency of the portfolio and support better decision making through improved portfolio metrics and targets
- Ensure a high degree of execution confidence of the work (i.e., work timelines and impacts are as anticipated) through comprehensive consultation with key stakeholders (i.e., engineering, projects).

### Minimum Qualifications

- 15+ years of progressive experience in areas of gas pipeline facility (compression, pipeline, measurement) as it relates to operations, maintenance, integrity, reliability, and capacity and maintenance projects.

- Post-Secondary Degree in a related field
- Strong leadership skills with a superior ability to formally and informally lead others
- Superior written and oral communication skills, project management skills, analytical and problem-solving skills, people management skills and financial acumen
- Outstanding negotiation and dispute resolutions skills, able to drive optimal outcome between stakeholders with differing opinions

#### Preferred Qualifications

- Professional Engineering Designation would be an asset
- 5 or more years of progressive leadership experience
- Strong listening, interpersonal, and influencing skills
- Demonstrated ability to network and influence others
- Strong Canada Gas business aptitude would be considered an asset
- Ability to manage multiple high priorities and negotiate the optimal solution for stakeholders
