

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Our growing Environmental practice is looking to add a talented and enthusiastic Environmental Consultant to join our team. In this role, you will benefit from the support of industry professionals while working on exciting and challenging projects throughout Alberta and the Prairies that make a meaningful difference in many communities, including local governments and Indigenous Communities.

Through our work, we strive to have a positive impact in the communities that we serve. To help support this, we are looking for someone who shares our values and is excited to provide a high level of service for our longstanding clients. Coupled with the diverse learning and project experience opportunities, do you see yourself excited to contribute to...

- Conducting desktop and field biophysical assessments, analyzing data and preparing comprehensive reports.
- Obtaining and managing regulatory approvals at the municipal, provincial, and federal levels for various projects.
- Leading wildlife surveys and habitat assessments to monitor, evaluate, and mitigate the impacts of projects on biodiversity, ensuring compliance with environmental regulations.
- Performing wetland classifications and permanence assessments to ensure compliance with environmental regulations.
- Conducting habitat assessments and restorations.
- Managing and organizing data collected for field work and regulatory processes to ensure accuracy and accessibility.
- Building strong relationships and providing support across our offices.

Experience

Our ideal candidate will be a Biologist, Agrologist, or Forester with a professional designation with a minimum of 5 years of experience. In addition, the following attributes and skills would be considered a benefit to this role:

- You are a Qualified Aquatic Environmental Specialist (QAES).
- You have experience with the Alberta Wetland Policy and are or have the potential to pursue signing authority as a Qualified Wetland Science Practitioner (QWSP).
- You have experience working with aquatic and/or terrestrial wildlife.
- You have approvals experience working under the Alberta Public Lands Act, Water Act, and/or the Federal Impact Assessment Act.
- You have experience in construction impact assessment and mitigation planning.
- You are a team player, embrace the notion of integration, and thrive in a team-oriented environment.
- You are an effective communicator, both verbal and written, allowing you to successfully interact with team members and clients.
- You seek to build and contribute to continuously looking for ways to improve and innovate.
- You have a demonstrated desire for professional growth, both individually and within a team.
