

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Forests

Williams Lake (Hybrid)

Engineering Technologist

Join our Engineering Team, a dedicated group responsible for maintaining and monitoring roads and major access structures within our business area. The team also constructs and deactivates roads throughout the region, ensuring our forest service roads are safe and environmentally compliant. Comprising four staff members, our team works with the Timber Development, Planning and Silviculture Teams. Their work is crucial in achieving our quarterly goals, managing a substantial budget and ensuring safety and environmental standards are met. We value this team's operational focus, high productivity and effective collaboration with contractors.

As an Engineering Technologist, you will manage contractors to ensure roads and access structures are monitored and maintained. Your work will impact the safety of all users of our network of forest service roads. This position offers a unique opportunity within the government to engage in hands-on, operational activities across a large area in the Cariboo Chilcotin. Applicants will be inspired by the chance to manage multiple large-scale construction projects and gain invaluable field experience. To learn more, check out the BCTS website and video.

Qualifications for this role include:

- Graduation from an approved technical institute with a diploma or degree in resource or forestry management and three years of experience in one or more operational field forestry activities.
- OR
- An equivalent combination of education or experience such as five years of experience in one or more area of operational field forestry.
- Operational field forestry activities include one or more of the following:
 - Timber harvesting monitoring/conformance
 - Cut-block development
 - Forest road engineering
 - Silviculture
 - Timber tenure development and administration
- Applicants must be registered or eligible for registration with Forest Professionals British Columbia (FPBC) as a Registered Forest Technologist or equivalent.
- Must possess at minimum a valid Class 5 B.C. Driver's License that does not limit or restrict the ability to conduct the duties of the job.
