

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

The Server Specialist is responsible for the administration, maintenance and troubleshooting of the Colleges servers and networks. Additionally, this position provides advice and guidance to the entire College community, corporate clients and other educational institutions regarding servers, network infrastructure and the complex interdependencies that exist between these systems and the applications, operating systems and workstations that they support. The responsibilities include but are not limited to:

- Maintains College server environment by planning, upgrading, tuning and troubleshooting the applications and operating systems running on College servers;

- Plans, assesses and implements network infrastructure and/or network resources that meet the College performance needs;

- Develops utility software to provide enhanced automation or control of College server or network resources, and develops scripts to help maintain or automate computing resources at the College;

- Interacts with the Desktop Specialist and Technicians to ensure workstations / servers coexist in the best possible fashion, and acts in the role of troubleshooter and technician as required; and,

- Works in compliance with the Occupational Health and Safety Act.

Experience

- Eight (8) years' experience in the Information Technology field including at least four years of progressive experience installing, administering, supporting, troubleshooting, tuning and testing Unix and Windows servers, as well as workstations;

- Ability to work in a complex multi-vendor environment;

- Ability to work in a team environment; and,

- Strong communication, analytical and problem solving skills.

Education Requirements

- A 4 year degree or equivalent in Computer Science, Networking, Network Administration;

Work Environment

Post secondary institution, office setting
