

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

We are looking to add an experienced Legal Survey Drafting Technologist to our growing legal survey team. In this role, you will benefit from the support of industry professionals while working on exciting and challenging projects that make a meaningful difference in many communities. We are looking for someone who shares our values and is excited to provide a high level of service. Coupled with the diverse learning and project experience opportunities, do you see yourself excited to contribute to...

- CAD Drafting: Create and update detailed municipal legal survey plans (subdivisions, condominiums, site plans, etc.) using Civil3D software with attention to precision.
- Plan Checking: Review and verify the accuracy, completeness, and regulatory compliance of survey plans.
- Quality Assurance: Develop and maintain rigorous quality control processes to ensure top-notch deliverables.
- Survey Data Review and Processing: Analyze field notes and return data, process information into specialized software and coordinate systems, and conduct thorough calculations and comparisons of surveyed evidence against registered plans.

Experience

The ideal candidate will have 5-10 years of experience with a diploma or degree in Geomatics, Survey Technology, or a related field or equivalent education/experience. The core skills that will help you succeed here include:

- Strong Attention to Detail: You possess a meticulous approach to checking and preparing survey plans to ensure accuracy and compliance.
- Analytical Skills: You have the ability to interpret complex data and provide precise solutions.
- Communication Skills: You have strong written and verbal communication skills to collaborate effectively with team members and clients.
- Problem Solving: You are proactive in identifying issues and implementing efficient solutions.
- Team Player: You are a team player who enjoys collaborating on a variety of projects.
- Software Proficiency: You have advanced skills in AutoCAD, Civil 3D, and other relevant CAD software. Familiarity with Trimble software is an asset.
- Technical Knowledge: You have a strong understanding of legal survey principles, land title systems, and municipal requirements in Alberta.
- Municipal Experience: You have experience in municipal legal survey drafting and site plans (subdivisions, condominiums, etc.)
