

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Date Posted</b>	From: 2019-04-24	To: 2019-10-21
<b>Job</b>	Type: Full-time	Category: Engineering
<b>Job Start Date</b>	As soon as possible	
<b>Job Salary</b>	\$38.00 per hour for 40 hours per week	
<b>Languages</b>	English	

### Description

Magga Engineering, Edmonton, Alberta, is seeking to add a Mechanical Draftsperson/Piping Designer to our dynamic team. This position supports the Lead for mechanical/piping design and 2D and 3D layout of moderate complexity projects in oil/gas industry.

Vacancy:

1 position

Job Type:

Permanent, full-time

Responsibilities:

• Develop and prepare design sketches

• Write specifications

• Prepare 2D Computer Aided Design (CAD) Mechanical/Piping drawings for oil/gas projects.

• Create and develop 3D model using CadWorx.

• Development of piping design and layout deliverables, including plot plans, 3D models, isometrics, general arrangement drawings and material take-offs

• Prepare Equipment List, Line Designation Table, Tie-In Lists and Bill of Materials.

• Provide technical piping design work to develop project drawings to meet project deliverables and communicate such to the project/design team

• Adhere to industry codes and standards as well as department practices and procedures.

• Ensure that all projects conform to client specifications, codes and standards

• Proactively work with Document Control to maintain project issue dates

• Other duties as assigned

Requirements:

• Completion of a college program in engineering design and drafting.

• 2-3 years' experience in 2D, 3D drafting preferred

• Prefer experience within conventional oil/gas plants, well site, batteries, full service terminal facilities

• Must be proficient with the following design software: AutoCAD, CadWorx (3D Equipment Modelling), Microsoft Office Software

• Familiarity with the development procedure of Process Flow Diagrams (PFDs), Piping and Instrument Diagrams (P&IDs), Plot Plans, General Arrangements and Isometrics

• Strong skills in drafting and design fundamentals

• Sound understanding of engineering design principles and design codes

### How to Apply

Qualified candidates can submit their resume to [hr@maggaeng.com](mailto:hr@maggaeng.com). We also welcome the underrepresented group to apply.

Mail resume to 8944-182 Street, Edmonton, AB T5T 2E31

We thank all those that apply; however only those considered for an interview will be contacted.
