

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

### Description

Worker Type: Permanent Language(s) Required: English Salary Range (plus eligible to receive a performance based incentive, applicable to position) : \$103,331 - \$139,803 Collaborative IT auditor needed:

Plan and execute audits that prioritize information technology systems, cyber security and information protection practices. You will be responsible for planning, executing and following-up on the closure of outstanding audit recommendations and partnering with Internal Audit and IT colleagues to advance IT control practices across FCC. What you do:

- Plan and conduct audit engagements focused on IT assets
- Enhance audit quality through professional standards and best practices
- Coach and mentor senior auditors
- Recommend corrective measures and follow up to ensure action is taken

What we're looking for:

- Innovative problem-solver with in-depth knowledge of IT governance, systems, practices and control testing
- Team player who can effectively assess IT risk management practices in today's world
- Proven communicator able to converse with non-technical audiences
- Creative thinker comfortable working with development operations and agile environments

What you'll need:

- A bachelor's degree in computer science or commerce and at least five years of experience (or equivalent combination of education and experience); CISA designation is an asset
- Extensive knowledge of internal auditing techniques and application of internal auditing standards
