

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Are you passionate about data and eager to turn insights into action

Join our Business Reporting team to gather and structure data, create reports, and provide recommendations that inform business decisions. Under the mentorship of experienced analysts, youâ€™ll gain hands-on experience analyzing and cleansing data, assessing data quality, and using analytical tools and programming languages to support informed business decisions.What you'll do

- Gather and structure data
- Create reports
- Perform trend analysis and make recommendations â€“
- Scrutinize data with analytical tools and programming languagesâ€“

What we're looking for

- A second- or third-year university student with a passion for data
- Analytical thinker who can transform data into useable informationâ€“
- A drive to learn and succeed
- Creative thinker with research and problem-solving skillsâ€“
- Strong communicator able to make complex information easy to understand

What you'll need

- Enrolment in a program for a degree in business, finance, mathematics, actuarial science or computer science
- Completion of at least one year of your post-secondary degree program
- Working knowledge of data manipulation and management toolsâ€“
- Bilingualism (English and French) is an asset

You belong here

At FCC, weâ€™re committed to creating an inclusive, equitable and accessible workplace â€“ one that reflects the communities where we live, work and play. Our team is made stronger through diversity, and weâ€™re dedicated to building a workforce that brings together a range of backgrounds, abilities and perspectives.

We encourage qualified applicants to apply, including members of these four employment equity groups:

â€• Indigenous Peoples

â€• Members of visible minority groups

â€• Persons with disabilities

â€• Women Accessibility and accommodations To support an inclusive and accessible candidate experience, we

encourage anyone needing an adjustment or accommodation during any stage of the recruitment process to email us at:

TalentSupplyRecherch@fcc-fac.ca. An HR partner will respond and work with applicants who request a reasonable accommodation. Information received in relation to accommodation requests will not impact hiring decisions.
