

# Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

<b>Date Posted</b>	From: 2024-06-26	To: 2050-01-01
<b>Job</b>	Type: Full-time	Category: Utilities

### Description

Highlights of the job: We are hiring a full-time, permanent Cableman position working out of the South Service Centre in Edmonton, AB. This position reports to the Manager, Customer Connections Operations. This opportunity is open to Internal and External candidates. Current EPCOR Employees please ensure that you are using your "@epcor.com" email address. As a Cableman, you are accountable for the day-to-day coordination and completion of single asset installations, maintenance and repairs of Electricity Operations' underground system. This includes proactively supporting a safe work environment and ensuring employee and public safety is paramount by making front line quality control and safety supervision a priority in all daily activities. What you'd be responsible for: Coordinating and completing single asset installations, maintenance and repairs which include: Setting up and organizing OSCAM permits, detours and barricading. De-energizing, isolating, grounding, testing and re-energizing portions of the system including requesting switching orders and grid access. Arranging customer outage requests through the P&GA site or by delivering notices when no complex customer plan is required. Terminating and splicing primary and secondary cables and completing hot work on secondary cables. Coordinating and assisting other non-trades crews or contractors with tasks such as materials support, cable pulling, civil, etc. Acting as the Employee in Charge (with other non-trades employees onsite). Entering and working in confined spaces, such as vaults and manholes, and acting as the permit receiver for confined spaces. Completing project as-builts, splice sheets, IVARA notes and post-job records along with documentation, such as truck time and time cards. Providing GOIs or Construction Clearance forms to single customers for demolitions or construction or providing LOA supervision to an external party. Contributing to an inclusive and positive team environment by providing ongoing training, coaching and mentoring to apprentices, new hires and drivers, ensuring site roles and responsibilities are clearly explained and understood, and by treating fellow coworkers and customers with respect. Ensuring the safety of others and work sites by completing thorough Safe Work Plans and discussions, which identify and mitigate onsite hazards and ensure compliance with procedures and policies. Acting as an SME providing technical input and feedback to other areas on work order packages, designs, procedures and standards. Maintaining truck stock, completing tool checks and equipment inspections and documenting work in the Tool Check App. Managing costs at the work order level by displaying sound time management skills and ensuring efficient use of personnel at the worksite. Requesting switching orders and ensuring switching is carried out safely within prescribed safety rules, procedures and work practices. Contacting customers impacted by switching orders to arrange outages. Assisting in the development and revision of new and existing work practices, policies and procedures. Assisting coworkers and the Foreman in resolving problems and providing coaching on task completion. Writing up completed work orders, splice sheets, supplying accurate as-built information and other required documentation in a timely manner.

What's required to be successful: High school Diploma, GED or equivalent level of secondary education. Journeyman Power Lineman. Experience as a PLT in underground operations functions. Live Line Aerial Training would be considered an asset. Demonstrated ability to schedule interdependent areas within EPCOR and external contractors required to complete assigned work. Proven knowledge of applicable regulations, including EPCOR work practices, policies and procedures, OH&S, Can/ULC, EPCOR Safety Manual, etc. Knowledge of related switchgear, cables, testing methods, automation components and specialized equipment. Strong project planning and decision making skills. Ability to maintain calm and work effectively during outages and pressure situations. Ability to troubleshoot, reduce customer impacts and work without engineering designs during emergency work.

Other important facts about this job  
Jurisdiction: IBEW1007  
Class: 8138  
Hours of work: 80 hours biweekly  
Wage: Starting at \$57.79 per hour; Final Wage and Step will be determined at the time of selection and is subject to change based on the ratification of the new Collective Agreement.

Please note the following information:  
A requirement of working for EPCOR is that you are at least 18 years of age, successfully attained a high school diploma (GED, or equivalent level of secondary education) and legally entitled to work in Canada. (A copy of a valid work permit may be required.)  
If you are considered for the position, clearance on all applicable background checks (which may include criminal, identity, educational, and/or credit) and professional reference checks is required. Some EPCOR positions require an enhanced level of background assessment, which is dictated by law. These positions require advanced criminal record checks that must also be conducted from time to time after commencement of employment.  
A technical/practical assessment may be administered during the selection process and this exercise will be used as a part of the selection criterion.  
To meet the physical demands required of some positions, candidates must be in good physical condition and willing to work in all weather conditions. Clearance on pre-placement medical and drug and alcohol testing may be required.
