

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Highlights of the job We are hiring one full time, permanent Power Lineman 3 position working out of Edmonton, AB. This position reports to the Manager, Aerial and Underground Transmission Trades. As the Power Lineman 3 in EPCOR's Aerial Transmission team in Electricity Operations, you will install, maintain and repair the Aerial Transmission and Distribution system. You will be accountable for coaching, leading and working with trades and non-trades personnel engaged in constructing, maintaining and repairing Distribution & Transmission (D&T) power lines and electrical equipment up to and including 500 KV. You are a strong team player and take pride in the work that you do. What you'd be responsible for Using your technical expertise to provide input to the Manager, Aerial and Underground Transmission on the team's plans and directions. Ensuring the delivery of optimal results against appropriate performance metrics. This includes, timely reporting of all incidents and safety concerns through the Event Reporting System (ERS), providing higher level technical expertise, assisting colleagues to resolve problems, keeping the Power Lineman 4 informed of task progress and work performance, making recommendations for improvement to the work, and working as a team to ensure success. Climbing transmission towers and working in a bucket at heights in excess of 100' for prolonged durations. Safely setting up and executing aerial transmission work in an urban setting. This includes reading and interpreting OSCAM permits and re-routing traffic to ensure a safe work zone. Inspecting Transmission infrastructure from the ground or the air. Switching on energized electrical apparatus and system automation components. Supporting contractors to complete several maintenance programs including but not limited to tower painting and vegetation management. Working on energized aerial systems (120-25,000 volts) using rubber gloves and other live line techniques. Responding to emergency conditions and environmental hazards. Performing various administrative functions such as report writing, as built information, Ivara comments and timesheets. Mentoring and training new employees or apprentices.

What's required to be successful High school diploma, GED or equivalent level of secondary education. Powerline Technician Journeyman Certificate. 3+ years directly related experience at a Journeyman level is required. Valid Class 3 Alberta Motor Vehicle Operator's License, with 6 or fewer demerits. Familiar with Occupational Health & Safety regulations and will be required to obtain a working knowledge of related provincial safety legislation and city bylaws. Thorough working knowledge of protective grounding, climbing poles with belt and spurs, aerial bucket/hydraulic equipment, tension stringing devices, and electrical safe work practices. Ability to read technical drawings and schematics (hard copy and electronic). Computer skills and a proficiency using software such as Microsoft Office Word, Excel and Outlook. Ability to meet the physical demands of the position. Demonstrated interest and ability to coach, lead and empower others and work effectively in a team. Proven attention to detail and technical expertise. Preference will be given to candidates that have:

A valid Class 1 Alberta Motor Vehicle Operator's License Experience working on the energized Aerial Distribution transmission systems Experience operating a 135' manlift Experience operating up to a 15K telehandler (zoom boom) Formal training in high angle rescue or rope rescue from transmission structures Knowledge of EPCOR work practices, policies and procedures, OH&S, AEUC, EPCOR Safety Manual, etc.

As the successful candidate, you demonstrate strong organizational, troubleshooting and decision making skills, and are committed to service and excellence. You consistently focus on continuous improvement and possess an affinity to learn and train others on new and existing processes. You take initiative, communicate openly and work effectively in a team environment, as well as independently. Health and safety are integral to EPCOR's work, and we strive to maintain a

zero-injury organizational culture. As such, all candidates must possess a high level of safety awareness and demonstrate safe work practices at all times. Employees will be required to actively participate in safety and other job-related training. Other important facts about this job: Jurisdiction: IBEW1007, Class: PS3.8182, Wage: Starting at \$57.79 per hour; Job rate: \$62.33 per hour, Hours of work: 80 hours biweekly, Application deadline: July 3, 2024, EPCOR employees: please ensure that you are using your "@epcor.com" email address. Learn more about Working at EPCOR, Follow us on LinkedIn, Twitter, Glassdoor or Facebook! #LI-TA2, Please note the following information: A requirement of working for EPCOR is that you are at least 18 years of age, successfully attained a high school diploma (GED, or equivalent level of secondary education) and legally entitled to work in Canada. (A copy of a valid work permit may be required.) If you are considered for the position, clearance on all applicable background checks (which may include criminal, identity, educational, and/or credit) and professional reference checks is required. Some EPCOR positions require an enhanced level of background assessment, which is dictated by law. These positions require advanced criminal record checks that must also be conducted from time to time after commencement of employment. A technical/practical assessment may be administered during the selection process and this exercise will be used as a part of the selection criterion. To meet the physical demands required of some positions, candidates must be in good physical condition and willing to work in all weather conditions. Clearance on pre-placement medical and drug and alcohol testing may be required.
