

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Job number: R-1003890
Location: Regina, Saskatchewan
Closing date: June 28, 2022
Language(s) required: English
Worker Type: Permanent
Market insights expertise required

Use today's insights tools to capture the voice of the agriculture industry and influence strategic decision-making.

What you'll do:

- Lead in the design, execution and analysis of quantitative and qualitative research projects
- Provide sense making across multiple sources of information to create data-driven insights and recommendations on key strategic decisions
- Consult with key internal stakeholders to ensure proper use of recommendations

What we're looking for:

- Strong communicator able to create a detailed report and present meaningful insights from data
- Proven researcher whose work inspires action
- Effective influencer who can responsibly challenge stakeholders to identify the research problems that need to be solved
- Collaborator and strong team player who easily builds relationships with senior leaders
- Agile multi-tasker with experience managing several projects at a time
- Ability to quickly adjust to shifting priorities
- Confident team player who can make sense of complex information and present it in a simple way

What you'll need:

- Undergraduate degree in business, social sciences or humanities and at least five years of related experience (or equivalent combination of education and experience)
- Willingness to travel within Canada up to 20 nights a year
- Background in agriculture, or a strong intellectual curiosity about the industry
