

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

The Manager, Product Solutions is accountable for identifying and evaluating the emerging business opportunities that are being considered as future products and service. Leads the design, development and launch of product in market under his/her responsibility. Maintains communication channels with Product and Market Management ensuring the vision of the product and services being developed align with customer and market need.

Employment Equity

Northwestel values diversity in the workplace and is committed to the goals of Employment Equity. We strive to achieve a skilled workforce that is representative of the population we serve, and as a Northern company, we are committed to the employment and career development of our Indigenous peoples. Candidates must clearly indicate on their application if they are an Indigenous person, a woman, a person with a disability, or a visible minority if they wish to receive hiring preference.

Specific Accountabilities

- Produces product definition and blueprints including functional and technical specifications of new products and services.
- Establishes product milestones and release plan by detailing the functionality at a user and technical level.
- Engages and owns relationship with vendors and partners for his/her product or service.
- Oversees the development of budget and timelines while defining ROI.
- Leads end-to-end product delivery ensuring business objectives are met.
- Owns the relationship with vendors and partners for the product or service development he/she are leading.
- Oversees all aspects related to the customer journey ensuring the quality of the customer experience with the end product.
- Actively participate in the Health & Safety program by working in compliance with OH&S Acts and Regulations, completing required training and reporting immediately to your Supervisor or Workplace H&S Committee member any work-related hazards and concerns.
- Knowledge & Skills Required
- Post-graduate degree in Economics, Marketing, or Engineering.

- Masters of Business Administration (MBA) desirable.
- Project Management Professional (PMP) desirable.
- Five years experience with business case development.
- Five years experience in process design.
- Excellent interpersonal skills: ability to work effectively with internal and external stakeholders at all levels in an organization.
- Excellent verbal and written communication skills, including presentation skills.
- Exceptional analytical and problem solving skills.
- Self-starter: able to identify and develop opportunities with minimal supervision.
- Ability to conceptualize and articulate new ideas and strategies.
- Solid technology acumen: able to bridge business initiatives and technology initiatives.
- Strong proficiency in MS Office Suite (Excel & PowerPoint).
- Demonstrated cross functional team leadership.
- Participation in organizational health and safety and/or knowledge of H&S regulations in Canada, will be considered an asset.

As part of the recruitment process for this position, candidates may be required to take pre-employment tests and/or complete work simulation exercise to assess job fit.

As a safety conscious COR, a Certified organization, we have an established and comprehensive safety program. We expect all employees to participate in our organizational health and safety programs, adhering to all safe work procedures focused on continuous improvement.
