

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

We are looking for a Civil Engineering Technologist to join our Cranbrook team! Our design technologist team (DTT) is an essential part of our practice and our ability to deliver excellent service to our clients.

You will be working with our team members to complete designs from high-level conceptual through to detailed design drawings. Specifically, you can expect to be involved in:

- Carrying out drafting and design assignments with local and remote supervision;
- Communicating with DTT members and project leaders;
- Supporting DTT personnel, design, drawing production and/or construction specifications;
- Ensuring quality control of both design and drafting production work;
- Performing field inspections during construction projects;
- Performing a variety of defined assignments with guidance from production team members;
- Advising the team on technical problems and troubleshooting; and
- Promoting and instilling a sense of teamwork among members.

Experience

Our preferred candidate will be an accredited Civil Engineering Technologist in BC or equivalent. Given the variety of project needs and a desire to find the right person to join our team, we will consider candidates with a range of experience, education, and background in land development, transportation, municipal infrastructure design production, and field inspection.

Essential Skills

In particular, we are looking for the following skills, strengths, and interests:

- Excellent drafting skills with good knowledge of drawing set-up and production
- Proficiency in AutoCAD and Civil 3D (required)
- Proficiency with Microsoft Excel and other MS Office software
- Experience with GIS an asset
- Field inspection experience
- A general understanding of construction contracts

- â€¢ A keen eye for detail and take great pride in your work, both the large and the small projects
- â€¢ Effective communication and writing abilities
- â€¢ Committed to ongoing personal and professional development

How to Apply

If this describes your background, your skills, and your natural talents, please visit our website for more information and submit your resume and cover letter.

Urban Systems is an equal opportunity employer. We strive to create an inclusive culture for all employees. Our clients come from all walks of life and so do you. We believe that diversity and unity among our teams leads to building vibrant communities.

Submit your application by October 20, 2021, at 9:00 am PST
