

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

Ministry of Environment and Climate Change Strategy

Multiple Locations (Hybrid)

Senior Environmental Protection Officer

\$80,359.22 - \$106,648.62 annually, which includes a 6.5% Recruitment and Retention Adjustment

The Ministry of Environment and Climate Change Strategy oversees protecting, managing, and conserving BC's water, land, air, and living things. The Ministry's Environmental Protection Division works to protect human and environmental health.

The Senior Environmental Protection Officer protects the environment. They do this by giving expert advice to others on the Environmental Management Act. They also advise on the management of industrial, municipal, and agricultural waste and on point and non-point source wastes and hazardous materials. This role leads regional and area-based Environmental Protection planning. It develops systematic approaches, policies, and regulations. It manages authorizations for high-risk, complex, and unique sites/situations in the region. It also conducts source monitoring to study the impacts of toxins and wastes. This work leads compliance, continuous improvement, and effective waste management.

Qualifications for this role include:

- Registered in good standing, or immediately eligible for registration, as a Professional Engineer with Engineers and Geoscientists of the Province of British Columbia (EGBC). Note: immediately eligible for registration is defined as being able to transfer a current membership from an applicable jurisdiction to EGBC within six (6) months of employment. Confirmation of registration/eligibility is required before an offer of employment can be made.
- Master's Degree in Environmental Engineering or a related field and three years related experience; OR,
- Bachelor of Applied Science or Bachelor of Engineering Degree with at least five (5) years of related experience.

Related experience must include all of the following:

- Experience related to environmental protection and industrial and municipal waste management, such as:

- o Experience with reduction, recycling, treatment and disposal technologies.
- o Experience conducting environmental monitoring, assessments and reporting related to waste discharges.
- o Experience with hazardous material spill response, hazardous waste and contaminated sites.
