

Indigenous.Link

Canada's fastest growing Indigenous career portal, Careers.Indigenous.Link is pleased to introduce a new approach to job searching for Indigenous Job Seekers of Canada. Careers.Indigenous.Link brings simplicity, value, and functionality to the world of Canadian online job boards.

Through our partnership with Indigenous.Links Diversity Recruitment Program, we post jobs for Canada's largest corporations and government departments. With our vertical job search engine technology, Indigenous Job Seekers can search thousands of Indigenous-specific jobs in just about every industry, city, province and postal code.

Careers.Indigenous.Link offers the hottest job listings from some of the nation's top employers, and we will continue to add services and enhance functionality ensuring a more effective job search. For example, during a search, job seekers have the ability to roll over any job listing and read a brief description of the position to determine if the job is exactly what they're searching for. This practical feature allows job seekers to only research jobs relevant to their search. By including elements like this, Careers.Indigenous.Link can help reduce the time it takes to find and apply for the best, available jobs.

The team behind Indigenous.Link is dedicated to connecting Indigenous Peoples of Canada with great jobs along with the most time and cost-effective, career-advancing resources. It is our mission to develop and maintain a website where people can go to work!

Description

About the Opportunity

Our Calgary office is currently looking for a capable and enthusiastic Engineer-in-Training to join the existing team of professionals providing quality service to our land development, municipal and Indigenous clients across Alberta.

In this role, you will benefit from the support of industry professionals while working on exciting and challenging projects that make a visible difference in the communities that we serve. Assisting our teams in the planning, design, and consultation on several projects, you will be given as much responsibility and freedom as you demonstrate you are able to handle – what you put in, is what you will get out of this opportunity. More specifically, you can anticipate being involved in the following duties, to name a few:

- Honing your civil engineering knowledge and skills;
- Increasing your understanding of industry best practices in a practical, real-world setting of Southern Alberta;
- Employing cutting-edge technologies and programs to carry out design and modeling assignments;
- Providing on-site inspections and contract administration for the construction of Urban Systems™ designs. Ensuring inspections are meeting design and governing body specifications;
- Preparation of Schedule of Quantities and Measurement and Payment Clauses for construction estimates and contract documents;
- Attending project meetings, liaising with clients/contractors/internal team members whilst listening, communicating, and developing consulting and project documentation skills;
- Completing design calculations for civil infrastructure and preparing technical reports, including Stormwater, Sanitary Sewer and Water Infrastructure; and
- Supporting the project management design and construction of projects.

Experience

About You

Our preferred candidate has a degree in Civil Engineering, less than 2 years of experience and possesses the following skills, strengths, and interests:

You are suited to the consulting environment given your entrepreneurial spirit and instincts for:

- Having an ability to listen to others and ask clarifying questions;
- Collaborating with people of varying backgrounds and perspectives;
- Providing practical solutions to problems; and
- Working hard to deliver value to our clients.

You have excellent written and verbal communication skills;

You are able to work independently, are a self-starter, but also a strong team player;

You are organized, able to prioritize effectively, and have a strong work ethic;

You are ambitious, don't mind getting your hands dirty, and believe no job is too small;

You have a valid driver's license; and

You have a keen interest and ideally work experience, in a wide range of civil infrastructure construction and design projects.

Work Environment

About Us

Recognized as one of Canada's top employers, Urban Systems is an employee-owned inter-disciplinary consulting firm based in Western Canada. In business since 1975, we have over four decades of experience working with a variety of clients including all levels of government, First Nations, commercial and residential land developers, and the natural resource sector. Our team of over 450 people, across multiple branch offices (approximately 100 individuals in Calgary), is committed to helping build vibrant communities of all sizes.

Our Commitment to You

At Urban Systems we make significant investments in our people, which is why we take great care to hire those who we believe will contribute to and thrive in Urban Systems over the long term. We've become recognized as a workplace of choice by nurturing a unique corporate culture that sets us apart and provides:

- Challenging and interesting project opportunities with a wide range of clients;
- A fun workplace, where creativity and hard work accomplishes great things;
- The opportunity to work in a professional practice firm collaborating with a wide range of clients;
- Ongoing career development and learning; and

â€¢ Meaningful rewards and recognition.

How to Apply

If this describes your background, your skills and your natural talents, please visit our website for more information and submit your resume and cover letter.

Urban Systems is an equal opportunity employer. We strive to create an inclusive culture for all employees. Our clients come from all walks of life and so do you. We believe that diversity and unity amongst our teams leads to building vibrant communities.

Deadline for applications: Wednesday, April 28, 2021, at 10:00 am MST.
